by Federal Agents  
Misapplication Charge

# WARLEY BILL DEFEATED

## Assembly Kills Union Pet

### House Votes Measure 37 to 30 After Rider Battle

#### Medison Labor Would Repeal Rancher; Rider for Session

Warren Smith, 44 years of age, manager of the Bank of America branch at Third and Spring streets, was arrested yesterday by Department of Justice agents and charged with misapplication of funds of a national bank. Smith, who has been an employee of the bank for several years, was accused in a complaint filed by James D. Day, a Department of Justice agent, with misapplication of funds of the Merchants Bank of America. Federal agents say Smith admitted misapplying \$15,000 of the bank funds. A check of his accounts is now being made.

Out of a mass of "investments" which Smith asserts were legitimate, federal agents say that specific charges upon which Smith is held refers to \$1750 which Smith is said to have taken from an account supposed to be in the name of a 78-year-old mother. The agents say that Smith induced his mother to transfer the money from an account in another bank to his institution giving her a pass book but not depositing the money with the bank. Smith is reported to have been on a home and, needing cash, kept up payments, began taking from "dormant" accounts. He is said to have invested some money in a lodge at Big Bear Lake. He was arraigned today before United States Commissioner Head.

# Father Finds Wife in Faint Infant Dead

Detective Lieutenant Burdette Robinson of University division, who is investigating the death of a 25-month-old child, found the mother in a faint condition on the floor beside the body of the child, which was found at 4708 Tenth avenue.

The child, according to the report, was discovered by her father, who returned to the house late yesterday. Mrs. Mahoney had been arraigned today before United States Commissioner Head.

# Lottie Pickford Quizzed on Boy

When queried reached Hollywood yesterday from Muskogee, Okla., Lottie Pickford and her son, George, former residents of Muskogee, were quizzed by the press on the film actress' alleged romance with a young man named George. Lottie Pickford, who is now in the city, was asked whether she was married, she said:

"You don't expect me to be a dead end, do you?"

Only several days ago she was married, she said.

Apparently well-known, however, are to the effect that Lottie Pickford and her son, George, were in Muskogee, Okla., and that she was in the city.

# FIGHT LAUNCHED HIGH-TENSION

A meeting of Huntington property owners is called for tonight at the Irvington school to unite opposition to the proposed high-tension line through the city.

# FISHERMEN'S CLUB HOLDS CELEBRATION

With 250 present last night, the Fishermen's Club celebrated its twenty-third anniversary at the city hall. The purpose of the celebration was to honor the club's founder, C. Horton, who founded the club in 1906. The celebration was held at the city hall, where a large number of guests were present.

# BENEDICT COURSE TO ANNOUNCEMENT

Announcement is made that Lincoln Benedict will give a course of free lectures on the subject of "The Science of the Mind" during the week of April 25 to 29.

# WEDDING PAIR'S TION UNIQUE

A reception was held at the home of the bride, Mrs. J. H. Smith, on the evening of April 22. The wedding ceremony was held at the city hall, where a large number of guests were present.

# Will Rogers Remarks:

BOSTON, April 23.—[To the Editor of The Times:] Say, that speech of Mr. Hoover's yesterday was just about one of the strongest things I've ever said, when he said life and property is less safe here than in any other civilized country in the world. The only difference of opinion we can have about that is do we come under the heading of civilized. I doubt that more than I do the statement. One thing he hadn't spoken two minutes till you could tell the same man hadn't written that speech that had been in there. It was about the condition of the country, but not the same condition that Calvin used to enumerate to us.

Babe Ruth come up this afternoon and didn't knock anything but a single. I never was so disgusted.

Yours,  
WILL ROGERS.

# NEW TAMER FOR TIGER

## Tammany Elects John F. Curry

### Smith and Foley Make Futile Fight to Keep Out Old Time Leader

NEW YORK, April 23. (Exclusive)—John F. Curry is the new leader of Tammany Hall, and there is a new Tammany Hall. The Murphy influence is ended, and the power of Surrogate Foley is wrecked. The organization draws far apart from Alfred Smith, who is now a private citizen.

In fact, without waiting a minute after the vote had been announced, Leader Curry declared his unqualified support of Mayor Walker for re-nomination.

VICTORY DECISIVE  
Mr. Curry, who is a leader of the Fifth Assembly District, second old.

# DOOM LURKS IN NEW RAY

## Electric Terror Annihilating

### San Francisco Scientist Has Developed 3,000,000-Volt Controlled Current

#### Deadly Itself, Invisible Demon Sends Out Related Beams That Kill, Too

SAN FRANCISCO, April 23. (Exclusive)—Production of a so-called "death ray" of 3,000,000 volts of electricity, strongest ever produced, but declared to be controlled and to be applicable commercially, was announced here today on behalf of John T. Martin, Seattle and San Francisco mining man and scientist. C. H. Melrose-Smith, industrial engineer for the Pacific Gas and Electric Company, who made the announcement, declared Martin's production exceeds by 1,000,000 volts the best previous record, which is credited to Dr. Harris J. Ryan, scientist at Stanford University.

Ryan's produced current jumped twenty-one feet, it said, but the distance traveled by the power ray of Martin has not been disclosed. Melrose-Smith, acting as spokesman, said Martin's process is capable of use in metallurgy and other commercial fields; that this is the first time such a mass of power has been controlled, and that the process allows determination of the direction of the "jump."

Such a "volcanic" force, as Melrose-Smith termed it, is deadly enough in itself, but also gives off rays, as yet unidentified, which probably are equally as deadly.

He declared a number of scientists have been experimenting with the so-called death ray. Melrose-Smith himself conducted many experiments, he said, for the British Ministry during the World War. A current of 5,000,000 volts now is the aim of scientists, he asserted.

Melrose-Smith said he is not privileged to disclose yet the exact details of the various commercial uses to which the death ray can be put. Martin, he said, is in Seattle at present demonstrating potentialities to other scientists, but is expected to return to this city in the near future.

RAY DEVELOPED FOR  
USE IN MILLING ORES

SEATTLE, April 23. (P)—Films showing the operation of the apparatus which is said to develop 3,000,000 volts of dynamic electrical energy were exhibited privately to stockholders of the San Francisco Company of San Francisco, today by John T. Martin, president of the concern.

The apparatus, Martin declared, was developed by Hector M. Hassell, former Seattle radio inventor, who has been working for the mining company since last December.

The equipment, which Martin said has been in operation in San Francisco a month, carefully guarded, is used to refine ore. The ray developed by the apparatus, Martin said, is a "death ray" only because of its high voltage.

"For our own purposes we shall use it only in breaking down elements into their various elements," he said. "We are not interested in breaking down elements and thus experimenting with the transmutation of metals. Should we discover a means of changing quicksilver to gold we would not make use of it. We have extensive holdings in gold and it would be disastrous to our interests if such transmutation should be achieved; the bottom would fall out of the gold market."

# TRINIDAD HAS HOPES OF AIR MAIL SERVICE

## PORT OF SPAIN (Trinidad) April 23. (P)—This island has hopes of extension of air-mail service from Central America here shortly, as a consequence of the visit of officials of the Pan-American Airways, Inc., with Sir Horace Byatt, Governor.

# LIQUOR FOR WISCONSIN LAW PLEDGED

## CHICAGO, April 23. (P)—The Women's Christian Temperance Union announced today that it will campaign to restore the Wisconsin prohibition law if it is repealed by the State Legislature.

# AUTOMOBILE TAX RECEIPT BILL TABLED

## Committee of Assembly Sponsors Proposal for Contingent Registration

SACRAMENTO, April 23. (P)—Senator Nelson's bill to require automobile owners to present personal property tax receipts on their cars before obtaining certificates of registration was tabled today by the Assembly Committee on Motor Vehicles.

The measure, which has drawn heavy support from the State administration and engendered hot opposition from friends of the contingent registration amendment proposed by Senator Murphy of San Francisco, was opposed at the hearing by automobile dealers from San Francisco, Oakland and Berkeley.

It objected to making a tax receipt necessary before obtaining re-registration, claiming that it would necessitate dealers who arrange most of their customers' papers, keeping large clerical forces.

The Murphy amendment would set a flat sum as "motor tax" and require that it be paid at the same time license tags are obtained.

A battle is expected on the Assembly floor as a result of the action on the Nelson bill. Some members of the Assembly Committee on Constitutional Amendments, which last week passed the Murphy bill with the proviso that the vote be deferred until the Nelson bill "had been disposed of," now insist that the Nelson bill be heard and that the Murphy bill be eligible for a vote; while other members of the committee maintain that the agreement was to consider both measures together.

# Prohibition ADOPTED ON POISON GAS

## Preparatory Disarmament Commission Accepts Ban at Secret Session

### GENEVA, April 23. (P)—Belgian proposals to prohibit the use of poison gas in war under reciprocal conditions and absolutely prohibiting bacteriological warfare were adopted in secret session today by the preparatory commission on disarmament of the League of Nations.

# Man Declared Dead Awakens

## SANTA CLARA (Cuba) April 23. (P)—Certified as dead and on the point of being embalmed, Jose Martinez Mejia rose from a ten-hour "death" last night.

### Mejia became unconscious late Sunday night and efforts to revive him failed. He was removed to an undertaking establishment and while attendants were preparing the body for embalming, the "dead" man's hand was seen to stir, and Mejia rose to his feet as if he had just awakened.

# Hooded!

## Solo Endurance Record Sought by Miss Smith

### ROOSEVELT FIELD (N. Y.) April 23. (P)—Miss Eleanor Smith again is in quest of the solo endurance flight record for women, a title which was wrested from her a few months ago. The record now is held by Louise McPherson, a woman of California, who remained aloft for twenty-two hours three minutes and twelve seconds.

# BYRD STILL KEPT INSIDE BY BLIZZARD

## Temperature Goes Up in Storm but Wind Makes It Feel Much Colder

### BY RUSSELL OWEN (Copyright, 1929, by the New York Times Company and St. Louis Post-Dispatch. All rights reserved.)

# LITTLE AMERICA (Antarctica) April 23. (Exclusive)—This has been another day of storm, with a wind whipping up the surface of the snow in a drift which makes it impossible to go any distance from the houses. As is usual when the wind blows here the temperature rose from 52 below zero to 27 below. But although that would be quite comfortable in a calm, it is another matter when the wind is high.

# Graf Zeppelin Over Bordeaux

## BORDEAUX (France) April 23. (P)—The dirigible Graf Zeppelin, which left its home hangar at Friedrichshafen this afternoon on its second Mediterranean cruise, passed over this city at 8:35 tonight.

# Glider Breaks Height Record

## GERSFELDE, April 23. (Exclusive)—The Viennese aviator Karl Kronfeldt, in flying through snow clouds and swarms of butterflies, established a new world record for altitude for motorless gliding planes, reaching a height of 6869 feet above the town of Neustadt.

# Boy Sailing Toy Boat Drowns

## SAN RAFAEL (Cal.) April 23. (P)—James Watson, 6-year-old son of Mr. and Mrs. Edward Watson of San Rafael, was drowned here today when he toppled into a creek while sailing a toy boat.

# COPPER MINE WAGES AT BUTTE TO BE CUT

## BUTTE (Mont.) April 23. (P)—Wages of employees on the daily pay roll of mines in the Butte district will be reduced 25 cents per shift on May 1, next, operators announced today.

# ST. LOUIS MUSEUM GETS GIFT OF RUGS

## ST. LOUIS, April 23. (P)—James F. Ballard, retired capitalist and manufacturer, today announced the gift of a \$250,000 collection of seventy oriental rugs of the fifteenth, sixteenth, seventeenth and eighteenth centuries to the City Art Museum of St. Louis.

# JUDGE HARDY TAKES STAND AND DENIES ALL CHARGES

## Dozen Witnesses Contradicted as He Relates Work at Temple; Cross-Examination Today

### BY C. A. JONES "Times" Staff Representative

# SACRAMENTO, April 23. (Exclusive)—Denials and contradictions of the testimony of a dozen witnesses fell from the lips of Superior Judge Hardy of Los Angeles this afternoon when he took the stand in the State Senate as his own chief witness in defense of his office and good name imperiled by the impeachment proceedings brought by the Assembly.

# He was on the stand four hours, under examination by Defense Attorney Nimmo. He has perhaps an hour's direct examination ahead of him tomorrow and then the cross-examination by Assemblymen Hornblower and Little, which in all probability will consume the remainder of the day. The defense then will close, it is stated.

# GEAT SHIFT APPROVED

## Reapportionment Bill Reported

### Action of Senate Committee on Joint Census Measure Marks Great Step

# McLeod Advises Michigan to Divide State in Readiness for New Legislators

## WASHINGTON, April 23.—(Exclusive)—Congressional reapportionment legislation was started definitely on its way through Congress today when the Senate Commerce Committee voted a favorable report on the combined reapportionment and census bill.

# The measure providing for a re-allocation of the seats of the House of Representatives came through the committee without change from its form as introduced at the start of the special session by Senator Vandenberg of Michigan. It would reapportion the 435 memberships of the House on the basis of 1930 population figures, and on a schedule that would make future reapportionments automatic every ten years. Senator Vandenberg terms it a "permanent reapportionment bill."

# FIGHT FORESEEN

## The Michigan Senator expressed confidence that the Senate will act favorably on the reapportionment bill, although he said administration leaders plan to have the reapportionment-census measure taken up immediately after the Senate disposes of the farm relief bill, which is the first measure on the program.

# Bill Regulates Veronal Sales

## SACRAMENTO, April 23. (P)—The Assembly Medical and Dental Committee today approved for passage a bill by Senator Rochester making it unlawful to sell or give away veronal containing more than forty grains avoirdupois per fluid ounce except by physicians' prescription.

# Boy Sailing Toy Boat Drowns

## SAN RAFAEL (Cal.) April 23. (P)—James Watson, 6-year-old son of Mr. and Mrs. Edward Watson of San Rafael, was drowned here today when he toppled into a creek while sailing a toy boat.

### AIR-CRASH QUIZ BY HOUSE ASKED

San Diego Disaster Has Echo in Congress

Inquiry Would Include Rules at Army Fields

Navy Department Denies Its Flyers Do Stunts

WASHINGTON, April 23. (AP)—A Congressional investigation into the collision of two airplanes near San Diego Sunday is asked in a resolution introduced today by Representative Evans, Republican, California.

### DOLLAR-A-YEAR MEN UNDERBID

Mayor in Illinois City Gets 50 Cents and Aldermen 25 cents Annually

HOOPESTON (Ill.) April 23. (AP)—Dr. Fred E. Earle today went on the city's payroll as Mayor at 50 cents a year. He is the seventeenth Mayor to serve at that salary since the city was incorporated. Aldermen receive 25 cents a year.

tion introduced today by Representative Evans, Republican, California. The resolution provides that the speaker of the House appoint five members to inquire into the crash, which caused six deaths. The inquiry also would be directed into the rules, flying codes and conditions under which practice flying and maneuvering is conducted at the various flying schools and fields of both the Army and Navy.

**DENIAL ISSUED**  
The Navy Department today formally denied that navy flyers have flown dangerously close to commercial planes. It said that complaints have been received from Jack Maddux, president of the corporation whose plane collided with the army pursuit plane.

**STUNTING DENIED**  
The statement added that inquiries have been made of officers stationed on the West Coast, who reported that "no such complaints have ever been received from the Maddux Air Lines," and that they have no knowledge of such hazardous practices on the part of any naval aircraft.

### INVESTIGATIONS INTO FATAL CRASH PROCEED

SAN DIEGO, April 23. (Exclusive)—With a coroner's inquest into the deaths of the six persons killed Sunday in a mid-air collision between a local army plane and a Maddux air liner, set for tomorrow at Bonham Brothers' mortuary, where the victims' bodies have been taken, investigations of the fatal crash still were in progress here today. At the direction of Maj.-Gen. John L. Hines, commanding the Ninth Army Corps Area, Brig.-Gen. Ralph H. Vandeman, commanding Fort Rosecrans and the Sixth Brigade, and Maj. H. B. Glantz, air officer, have been conducting an investigation of the crash. At Rockwell Field a board consisting of three local officers has been appointed to conduct an Army Air Corps investigation. The board members are Maj. J. H. Houghton, Capt. J. M. Stanley and Lt. R. Dallas. The San Diego Air Control Board has made its investigation and in announcing its findings, placed the blame for the crash upon Lieut. Howard W. Keeler, pilot of the army pursuit plane which dived into the huge Maddux plane, while the two were about 1800 feet above East San Diego Sunday noon.

### FIFTEEN TO TESTIFY

Coroner Schuyler C. Kelly announced that at tomorrow's inquest, scheduled for 10 a.m., representatives of the United States Department of Commerce, the San Diego Air Control Board, the United States Army and the United States Navy will attend the inquest. Coroner Kelly said. Representing the Department of Commerce are inspectors J. G. Hall and R. L. Hazen, who arrived here from Los Angeles. In discussing the question of a probable suit against the government in the event conclusive proof is shown that the army plane was at fault, Edwin Heitzman, attorney for the Maddux lines, indicated that an act of Congress would be necessary before such a suit could be filed. Heitzman declared that it is not known at present what court action will be taken by the Maddux company and he is considering all the legal phases of the situation.

### STUNT FLYING SCORED

With several members of the City Council condemning stunt flying over San Diego, strict observance of the municipal ordinance governing activities of aviators was urged by that body following Sunday's tragic accident. The ordinance adopted almost two years ago provides that aviators shall not fly lower than 2000 feet over San Diego. Action to prevent low flying over thickly settled but unincorporated areas of San Diego county was taken by the Board of Supervisors yesterday. The legal department was ordered to prepare an ordinance stipulating 2000 feet as the lowest altitude at which planes may operate in those sections.

### MADDUX REPRESENTATIVES TO ATTEND INVESTIGATION

The War Department yesterday granted the request of the Maddux Air Lines that its representatives be permitted to attend the Army's investigation of the fatal San Diego crash, according to an announcement by Arthur Q. Hagerman, an official of the company. The concession was contained, Hagerman said, in a telegram from Secretary of War Good, addressed to Lieut. D. W. Tomlinson, vice-president of the company, in response to a wire dispatched by the latter to Washington Monday. Supplementing statements made the day of the crash, J. L. Maddux, president of the company, yesterday said he had been misunderstood rather than misquoted. The assertion that his firm complained to government departments before the accident was incorrect, he said. "No formal protests had been forwarded," he explained, "but individual inspectors of the Department of Commerce received verbal complaints on visits to the San Diego airport and the Glendale base of the company."

### SENATE AGAIN BALKS HOOVER

Repeal of Immigration Quota Turned Down

Committee Votes Against Changing Law

President's Supporters Will Take Fight to Floor

WASHINGTON, April 23. (Exclusive)—Senatorial opposition to the Hoover legislative program cropped out in another arena today. For the second time in two days a Senate committee rebuffed the President and, while the first affront, on the debenture farm plan, promises to be short-lived and result finally in victory for Mr. Hoover, the second seems destined to "stick."

Today's action was on national origins, the new immigration quota bills which President Hoover wants repealed and which the Senate Immigration Committee by a vote of 4 to 2 decided should not be repealed.

**HOPES SHATTERED**  
By that 2-to-1 vote the President's hopes were shattered and Senator Reed of Pennsylvania, usually a stalwart administration Republican, put the finishing touches of victory on a fight he led in the Congress when the national origins basis was adopted, and protected against repeal in the closing hours of the last session by a filibuster which Reed led.

Opponents of the national origins system announced immediately after their rout in committee that they intend to carry their fight for President Hoover and the old immigration quota plan to the floor of the Senate. On the face of things their efforts seem doomed to failure.

The committee entirely ignored the President's plea, carried in his recent message, for postponement of national origins, which becomes effective July 1 if a repealer is not put through.

### HAD ADVANTAGE

Senator Reed is credited with having caught the committee at a strategic moment when with a bare quorum present he had the advantage on his side of the controversy. He made a motion for "indefinite postponement" of consideration of repealer resolutions introduced by Senators Nye and Walsh, Democrats of Montana. Senator Reed had with him on the roll call Senators Keyes of New Hampshire and Hatfield of West Virginia, Republicans, and Senator Harris of Georgia, Democrat. Senator Gould, Republican of Maine, was present, but did not vote.

The next step will be taken by Nye and Senator King of Utah, and will be an effort on the floor of the Senate to force discharge of the committee from further consideration of the repealer, so that the matter can be threshed out on the floor. At this time there seems little likelihood that such a move will win out.

### Barker's Among Concerns Given Refunded Taxes

WASHINGTON, April 23. (AP)—Seven tax refunds, the first made under the executive order of President Hoover making public refunds of \$20,000 or more, were announced by the Internal Revenue Bureau today, the largest being a refund of \$4,635,530 to the estate of William W. Astor, due to a decision in a United States Circuit Court of Appeals in favor of the taxpayer.

Other refunds were: The Hoffheimer Brothers Company, Cincinnati, \$2,287; the Dallas Brass and Copper Company, Chicago, \$3,121; the P. Lorillard & Co., New York, \$235,554; the Fisk Rubber Company, New York, \$216,280; Barker Brothers, Los Angeles, \$42,350; and the Trust Company of Georgia, Atlanta, \$230,097.

### Reeder's Sons Oppose Estate Trust Program

TIPTON (Iowa) April 23. (AP)—J. W. Reeder, who held president Hoover's hat on inauguration day, has been named defendant in a suit filed in District Court by his five sons, who seek to have the trust deed to their father's \$500,000 estate set aside.

Mr. Reeder, it is stated, deeded his estate to Arthur Lund, attorney, as trustee for his heirs. At the same time he filed an agreement telling how he wished his estate disposed of.

Dr. Grant S. Reeder of Fremont, Neb., and four other sons living here object to the plans of their father. They contend that the attorney is given absolute authority over the property.

### Bishop Asked Why He Sailed on Wet Vessel

WASHINGTON, April 23. (AP)—Representative Laguardia, Republican, New York, today made public a radiogram he sent to Bishop James Cannon, Jr., on board the British steamer Olympic, inquiring why he booked passage on a "British run-soaked ship" when there were several "bone-dry" American ships available.

"It is wrong for other Americans to patronize run-selling ships," Laguardia's message said, "how do you justify your actions? Do you really practice what you preach? I crave information."

### BILL REVAMPS STATE SYSTEM

Long Beach Assemblyman Proposes Change

Virtually Continuous Session of Legislature Asked

Pay and Clerk Allowance Would be Raised

SACRAMENTO, April 23. (AP)—Revision of the legislative system of California was proposed to the Assembly today in a resolution introduced by Assemblyman Keaton of Long Beach.

Among the changes embodied in the resolution, which would submit the decision to popular vote in 1930, are:

(1) A virtually continuous session of the State Legislature, annual meetings to begin on the first Monday of each January.  
(2) Standing committees the year around.  
(3) A four-year term for Assemblymen.

(4) A rise of salaries of both Senators and Assemblymen from \$1200 annually to \$3600. Also a rise in clerical allowances from \$250 in each house to \$400 in the Senate and \$450 in the Assembly.

Joining Keaton in signing the resolution were Assemblymen Williams, Quigley, Hornblower, Arnold, Lyons, Bishop and Fisher.

Proponents of the measure contend it would go far toward recapturing the authority of the Legislature, scattered, they say, among the myriad boards, divisions, bureaus and commissions of the present State structure.

They further asserted that annual sessions are inevitable for a law-making body which will have handled more than 2000 bills, many of them of great importance, during the session.

Rises in salaries, they contend, will bring a higher type of individual into public service.

## "Which Stock Is Safe?"

The executives of a manufacturing concern had just decided to invest their reserve in some safe stock, when one of them put the question, "How can you tell which stock is safe?"

This question led them to agree that for safety with high yield our guaranteed 6% Full Paid Investment Certificates are the most reliable.

We pay interest monthly, quarterly, or half-yearly.

## HEFLIN-INVOKES SENATE REBUKE

He Wants Brockton, Mass., Severely Censured

Colleagues Start Debate on Ethics of Act

Gillett Says State Sorry, Also Missile Tosses

WASHINGTON, April 23. (P)—A demand by Senator Hefflin of Alabama that the Senate adopt a resolution condemning treatment accorded him in Brockton, Mass., on March 18 while he was making a speech before a Ku Klux Klan meeting, today engaged the Senate in its first protracted debate of the special session. Missiles were thrown at the Senator in the Massachusetts city.

Expressing his own regret and that of the citizens of Massachusetts for the occurrence, Senator Hefflin said the Senate should denounce interference of the right of the individual to freedom of speech.

**HEFLIN GOT FEE**  
Senator Gillett said he had no objection to the resolution, but suggested that Senator Hefflin was paid by the Klan for his speech and therefore was not acting in the capacity of a public man. Hefflin said he had received a fee, but contended that made no difference.

The point was raised by Senator Borah of Idaho, that the Senate should not condemn a "criminal" the actions of any individual unless that person had been given a chance to defend himself.

Senator King of Utah, offered as a substitute for the resolution brought forward by Senator Hefflin, a statement in which the Senate would express regret for the affair and say it condemned occurrences such as the one that took place in Brockton. Senator Hefflin told the Senate that "about thirty or forty Catholic boys" stood in front of the hall in which he spoke and shouted "shoot him. He's a dog."

**"IS THAT NICE"**  
"Is that nice to teach boys to so treat a United States Senator?" he asked.

He named Senators Borah, Pease of Ohio, Ashurst of Arizona, Walsh (not specifying whether of Montana or Massachusetts), Harrison of Mississippi and Barkley of Kentucky, as having accepted fees from organizations before whom they spoke.

Senator Gillett said the people of Massachusetts are law abiding and such occurrences are rare.

**THROWER SORRY**  
"However," he added, "the subject which the Senator was discussing is one which has incited the passions of people for centuries. Judging from the remarks the Senator has made in this chamber, I would say he was not very temperate at Brockton."

**WIDOW DETAINED**

IN HUSBAND'S DEATH

BIRMINGHAM (Ala.) April 23. (P)—Mrs. Margaret Fay Wharton, who attributed her husband's murder several days ago to an attack by a "burly" negro, was under arrest today while officers delved into the mysterious circumstances of the slaying. In custody with the widow was A. R. Hall, a roomer in the couple's home.

## SENATE MAY GO ON AIR...

Resolution Introduced by Dill to Place Microphones on Desk of Each Member Permanently

(Copyright, 1936, by North American Newspaper Alliance.)  
WASHINGTON, April 23. (Exclusive)—Broadcasting of the proceedings of the United States Senate, especially during debates on momentous issues, again is proposed in a resolution introduced by Senator Dill of Washington. The resolution provides for installing on the desk of each Senator a microphone with wire connection to a central switchboard.

As a preliminary demonstration of the feasibility of this broadcasting plan, Senator Dill is proposing that the hearings on his resolution be broadcast from the committee room by the national chains. He is pressing for the consent of the Senate Committee on Audit and Control, which has charge of such matters, already having obtained the assurance of one chain that it will be willing to broadcast the hearings.

**OPENS NEW POSSIBILITIES**  
"The broadcasting of the Senate proceedings on inauguration day," said Senator Dill, "proved to be the most instructive and popular feature that yet has been sent out by radio. The time has come when the people should be permitted to hear the Senators who represent them discuss legislation, particularly such national issues as farm relief and the tariff, which now are before us. Hearings on the resolution to make such broadcasting possible would be an interesting preliminary."

If the necessary consent is obtained, it is probable that the Senate from the committee room, where microphones would be placed before each Senator, would take place during the evening in order to attract a large audience. The proposal to broadcast directly from the Senate chamber, if adopted, opens up the possibility that Senate sessions may evolve into regular night meetings like those of the British Parliament.

**SOME OPPOSE PLAN**  
Senator Dill would have existing broadcasting facilities used for the Senate broadcasts rather than have the government erect a network of stations of its own. A report by War and Navy Department radio experts about two years ago discouraged proposals to erect a chain of government stations by showing that about twenty-five high-powered stations would be needed for such a service and that the necessary wave lengths could not be obtained in the present broadcasting band without paralyzing existing broadcasting programs.

Whether Senator Dill can get further than the committee hearings with his bill is highly problematical. There is a known aversion among some Senators to the idea of having the proceedings broadcast. It took a special dispensation to have even the Vice-Presidential inauguration ceremonies broadcast by the two chains from the Senate chamber March 4, last, the first and only time that a microphone ever has been installed in the upper house of Congress.

Senator Dill's idea is to have only the highly important debates go on the air.

If the reading of this article teaches you only this one lesson about your own body it may be worth more than millions of dollars to you; for of what use is money without health, or after you are dead?

The lesson is this:—"Keep your system pure and you will have health and strength to gain and enjoy happiness, success and length of years."

But you may ask:—

### How Can I Keep My System Pure?

That is not a hard question to answer, for physiology plainly teaches you that your liver, which is larger than all of the other glands of the body combined, has the special work of purifying your blood and thereby your entire system and of keeping it pure and healthy.

### How Does the Liver Purify?

Physicians tell us that the liver has several functions, one of which is to manufacture a greenish-yellow, bitter fluid called bile, which, between meals, is stored up in the gall-bladder, but after each meal is poured out into the intestines. The bile is purgative and antiseptic or prophylactic. In health it is your bile that makes your bowels act regularly and freely every day,—it is Nature's purgative. It is your bile that keeps your bowels pure, clean and free from fermentation (gas) putrefaction and decay. Remember that germs do not thrive where there is fresh bile and there can therefore be no fermentation to cause gas, nor putrefaction to produce poisons or toxins. Also, as bile is Nature's purgative, there can be no constipation if the bile is flowing naturally and freely from the gall-bladder into the bowels after each meal.

But when the bile becomes stagnant your bowels stop acting regularly and the contents become a breeding bed for the germs of fermentation (gas) decay and disease. These poisons (called toxins) are gradually absorbed into your blood and circulate all over your body, poisoning, irritating or inflaming your brain and nerves, your muscles and joints, your heart, lungs, skin, kidneys, and every vital organ of your body. Your doctor calls this "intestinal toxemia," and tells you that your system is "toxic."

### Functions of Gall-Bladder

In 24 hours your liver secretes about 25 to 30 ounces (5 to 6 teacupfuls) of bile, which flows through millions of minute canals, or ducts, uniting to make a large tube which empties into the gall-bladder, as creeks and rivulets unite to form a river that flows into a lake. Your gall-bladder is a hollow muscle that serves the double purpose of a reservoir and a pump. Its functions are similar to those of the urinary bladder. About three hours after eat-

ing, when the food is passing from the stomach into the intestine, your gall-bladder should begin its peristaltic contractions, thus pumping the bile into the small intestine where it is mixed with your food. (Bile is also a very important digestive fluid, aiding in the digestion and absorption of fats and oils. But that is too long a story to relate here.)

### Nature's Danger Signals

When your car gets out of order you can tell it. It is the same way with your bile. Nature gives you warning—not by words, but by signals or symptoms. Your doctor recognizes these danger signals and you should also know them and instantly heed them. It may save you much pain, serious illness and perhaps big repair bills.

When the bile becomes stagnant in your gall-bladder and is dammed back into your liver instead of flowing freely into your bowels you, sooner or later, begin to feel some of the following symptoms:—Your breath may become unpleasant, your tongue coated, a bad taste in your mouth, your food (and tobacco) loses their natural flavor, your food does not agree with you; you may have heartburn, gas, or fluttering around the heart, dizziness or blind spell; you may be troubled with belching or frequent passages of gas from the bowels; the gas "balloons" your bowels and presses so hard on the kidneys that it gives you pain, soreness, stiffness in the small of your back over your kidneys, making you think you have kidney trouble; at night the gas in your bowels presses upon your bladder making you get up frequently, thus breaking into your sleep. In the morning you are tired instead of refreshed. Gradually your health is injured. Your complexion becomes sallow, muddy or yellow—your skin may be disfigured with liver spots or pimples; dark rings may appear under your eyes; you may become sleepless, restless and irritable or blue and melancholic. You may have frequent colds or dull headache; your bowels stop their free, full and natural action; you have constipation, gas, putrefaction and self-poisoning or "intestinal toxemia," as the doctors call it. High blood pressure, with headache and swooning spells, may result from continued neglect.

### How to Make the Bile Flow

But when the bile stops flowing freely, how can we start it up again? The answer is: Take Calotabs at bedtime and drink water freely the next day. This formula represents the best thought and experience of the best physicians. No other purgative will do. If you take oils, salts, cascara, or the many other simple laxative syrups, powders and candy laxatives you are merely wasting valuable time. They

only make you feel better for a day or two. They do not remove the cause, for they do not promote the expulsion of the bile which is Nature's purgative and intestinal antiseptic. When you take Calotabs you know that you have taken a real doctor's medicine. It cleans you out thoroughly. Every inch of your twenty-five foot canal, including your stomach, small intestine and large intestine, is thoroughly cleared and washed clean and pure and your bile is flowing freely. Next morning your system feels purified and refreshed and you are feeling fine, with a hearty appetite for breakfast. Eat what you please and go about your work;—there is no danger, for Calotabs are perfectly safe and create no habit, except the habit of healthy bowel action.

### What are Calotabs—How Do They Act?

Calotabs are sugar coated tablets containing the minimum effective dose of a thoroughly purified and refined calomel combined with assistants and correctives. The calomel facilitates the expulsion of the bile from the gall-bladder into the intestines and also serves as a mild intestinal antiseptic. Every physician knows that no other medicine can take its place; there is no such thing as a substitute for calomel. The assistants act like salts, washing the calomel out of the system and preventing its accumulation and any possibility of danger. The correctives settle the stomach and bowels, preventing nausea, sickening and griping effects. Calotabs, (and water) therefore, give you the combined effects of calomel and salts in a perfectly safe and delightful form.

The medicine chest of every home should be supplied with Calotabs, one of the most important of all family medicines. It is needed in many cases of sickness, and, if used occasionally as needed, may assist Nature to correct conditions which, if neglected, may lead to serious illness.

Avoid disappointment by refusing imitations. Your druggist can supply you with genuine Calotabs or order them for you. For your protection, Calotabs are marketed in original packages only, bearing the copyrighted trademark. Family packages containing full directions, only 10 cents.

**DR. SARGON'S**  
GIBSON'S SPEECH EXPECTED TO BRING RESULTS  
Officials Point Out What Proposal Contains  
Hoover Congratulated by Sir Esme Howard

WASHINGTON, April 23. (AP)—The reception accorded abroad to Ambassador Hugh Gibson's address at Geneva outlining the American viewpoint has encouraged Washington officials in their hope that the preliminary conference will bring some tangible results toward ending competitive naval construction.

It was emphasized in official quarters today that the American demand for parity in naval strength is not involved in the present conference. The position of the American government on that point was said to be unchanged, but it was stated that there is a desire for a substantial reduction in existing naval forces under which parity would be undisturbed.

**AMERICAN PROPOSAL**  
What the United States now is proposing is evaluation of the fighting strength of ships on the basis of size of guns, thickness of armor, protection, speed and age as well as actual tonnage. With each factor to count for many points in a scale to be agreed upon.

American naval experts hold that these four elements, rather than tonnage itself, constitute the real basis for comparing the effectiveness of fighting ships, and that effectiveness is the true test for relative naval strength.

**HOOPER CONGRATULATED**  
Chairman Britten, of the House Naval Committee, described Ambassador Gibson's declaration as a "complete surrender," of the principle advanced by the American delegates at the last Geneva conference and "another naval victory for British diplomacy."

President Hoover was congratulated personally today by Sir Esme Howard, the British Ambassador, on the American disarmament stand. Calling at the White House on another mission, the Ambassador said everyone in his own country seems very much satisfied and has received the Gibson declaration with a "most hearty welcome."

**FRENCH PRESS WARMLY PRAISES AMERICAN PROPOSAL**  
PARIS, April 23. (AP)—The French press almost with one accord to

**DRYS TIE UP SUGAR PLANT**  
Illinois Factory Closes as Agents Check Sales of Corn Product  
DECATUR (Ill.) April 23. (AP)—The A. E. Staley manufacturing Company, one of the largest corn sugar producing firms in the State, remains closed temporarily while officials investigate the legality of sales to persons who might utilize the sugar for liquor-making purposes. Staley, the president, said they had decided to shut down until "we get our bearings."

The plant uses 10,000 bushels of corn a day and provides work for approximately 1000 men.

day praised the American disarmament proposals as broached at Geneva yesterday by Ambassador Gibson.

All newspapers qualified the American Ambassador's statement of Washington's views as "most important."

Le Matin (independent) said: "The United States has made a great step forward in the will to disarmament. Mr. Gibson has reiterated and endorsed the compromise proposition made by France in 1927."

**INITIATIVE WELCOMED**  
The initiative of the American government at Geneva, is warmly welcomed by the Journal des Debats, which says it is characteristic of President Hoover to make such a decision. It is to the interest of everyone, it remarked, to get out of the deadlock into which the discussions at Geneva had fallen.

"It is equally clear that a link, although indirect, exists between an armament agreement and a general debt settlement. The latter can be facilitated only by the United States. That is to say, by the American government, American opinion, and American public opinion, and these three factors will not intervene until after they have become convinced that Europe is renouncing the race for armaments and bellicose solutions. One must, therefore, wish good luck to the Geneva negotiations," the newspaper summarizes the situation.

**LE TEMPS VIEWS**  
Le Temps characterized the American proposal today as a "fact of great importance," and declared that it "completely modified the atmosphere at Geneva."

The newspaper which often reflects the French government's point of view on important questions, concludes that "without dissimulating the fact that serious difficulties are yet to be surmounted before a precise formula can be reached, there are now better prospects for an accord in principle upon the method of limitation of armaments on the sea."

**GERMANY CONSIDERS STATEMENT REMARKABLE**  
BERLIN, April 23. (AP)—German official circles consider Ambassador Gibson's Geneva speech as the most remarkable made since the disarmament parleys began, particularly since the full support of President Hoover.

In official circles special satisfaction is shown that Mr. Gibson has fully expounded reduction and not mere limitation of armaments. By pushing naval disarmament, it is felt here, he checked the argument that land disarmament cannot begin until something also is done with the naval question.

Ambassador Gibson's assertion that the United States is ready to meet the position of European powers on land disarmament also is regarded with satisfaction.

**JAPAN REGARDS IT HOPEFUL GESTURE**  
TOKIO, April 23. (AP)—Ambassador Gibson's speech at Geneva is cautiously hailed in high naval quarters here as a welcome indication of the general character of the disarmament position and a significant promise of new prospects of a limitation agreement.

Official comment on definite points were withheld pending receipt of an official report from Geneva. A navy office spokesman, however, asserted that Mr. Gibson's speech was a hopeful gesture rather than a definite plan of procedure and that Japan must wait concrete proposals before defining her attitude although naturally indications of America's willingness to amend her 1927 position would be studied carefully.

The spokesman reiterated expressions of Japan's sincere desire to contribute her full share to further naval limitations.

**GASOLINE PRICE SET PENDING NEGOTIATIONS**  
SAN FRANCISCO, April 23. (AP)—Twenty cents a gallon will be the price of gasoline at service stations here for three days, Charles Jacobs, field director of the Retail Service Station Dealers' Association, announced today. During this period, Jacobs said, an attempt will be made to reach an iron-clad agreement with the Garage and Property Owners' Association on a definite price.

**COOLIDGE'S SUMMER HOME UP FOR SALE**  
SUPERIOR (Wis.) April 23. (AP)—Calvin Coolidge's 1928 summer home is for sale. It was announced today. The 4400-acre estate of Henry Clay Pierce, and Cedar Island Lodge, the 1928 summer White House, has been put into the hands of a Minneapolis real estate concern. Although the price of the property is unannounced, it is estimated the land through which runs the Brule River is valued at \$1,000,000.

**OAKLAND THEATER BURNS**  
OAKLAND, April 23. (AP)—Fire today destroyed the Fairfax Theater here. Four firemen were injured seriously during attempts to control the blaze, which threatened a large part of the East Oakland business district. The damage is estimated at \$200,000.

**DISAGREEMENT STORIES DIFFER**  
Reparations Experts Split on Failure Cause  
Conclusion of Parley Waits on Report Framing  
Futility of Meet Conceded by All Save Germans

PARIS, April 23. (AP)—The reparations experts again failed in their efforts to find a solution for the long-pending reparations problem and began winding up their work today.

The final work of the committee, in the words of an official communiqué, began with first efforts to agree on the points to be incorporated in a report of the failure to the reparations commission and to the interested governments.

Today's plenary sessions, postponed from yesterday because of the late return of Dr. Hjalmar Schacht after a consultation with the German government at Berlin, opened in the midst of rumors of further negotiations between the Germans and the Allies, but a communiqué issued after adjournment gave no indication that these negotiations were likely to change the situation.

**DISAGREE ON DISAGREEMENT**  
The text of the communiqué pointed out clearly that the experts disagreed not only on the proposed reparations settlement, but upon the terms in which that disagreement should be officially reported. Nevertheless, it was decided that the principal experts go to work on a report concerning the points that are not disputed while the delegates continue to exchange views as to the contested features.

The Germans still appeared to cling to hope of reopening talks concerning the main question of an agreement on reparations payments, but the French and Belgians remained impassive, apparently determined to make no move themselves nor to encourage any steps by anyone else unless the German bankers and American public opinion, and these three factors will not intervene until after they have become convinced that Europe is renouncing the race for armaments and bellicose solutions. One must, therefore, wish good luck to the Geneva negotiations," the newspaper summarizes the situation.

**FRAMERS OF REPORT**  
Those who took up the question of how this report should be framed and what it should contain were Dr. Schacht, Owen D. Young, Emile Moreau, Emile Franquet, Commandatore Pirelli, Menno Mori and Sir Josiah Stamp.

Some of the experts wanted a brief statement of the failure of

**BLACK CAT HAS CHARMED LIFE**  
Fifteen Other Pets Burned to Death as Fire Destroys Bohemian Resort  
NEW YORK, April 23. (AP)—A black cat was the only pet to escape when the Pirates' Den, one of the best-known of the Greenwich Village resorts, was wrecked by fire today.

Fifteen other pets of Don Dickerman, owner of the place, including cats, parrots, macaws and canaries, were burned to death.

A valuable collection of pirate relics which Dickerman had spent years in collecting was destroyed. How the fire started is a mystery.

the committee to accomplish the task committed to it. Others wanted a full report of everything that went on during the life of the committee. There was a third tendency, believed to have American representatives behind it, to select for the report what was significant and useful for future reference, leaving out everything that could serve no other purpose than to establish responsibilities or lay down points of policies.

**Kin of Prominent Canadians Killed**  
TORONTO (Ont.) April 23. (Exclusive)—Noel Marshall and William MacKenzie, amateur aviators, were killed when their plane crashed at the side of the Toronto Flying Club at Leaside early this evening.

The plane burst into flames and the bodies were terribly burned before rescuers could reach the scene. The plane was totally destroyed.

Marshall was the son of Col. Noel Marshall, nationally known in Canada for his Red Cross work. MacKenzie was the grandson of Sir William MacKenzie, one of the builders of the Canadian National Railways.

**MORTGAGE ACTION HALTED**  
SAN FRANCISCO, April 23. (AP)—A temporary restraining order, issued by Federal Judge Kerrigan today, prohibits the Liberty Amusement Company and Frank Beatty, Pacific Coast theatrical man, from foreclosing a \$23,000 mortgage on the properties of the National Theater Syndicate operating in Chicago, Marysville and Stockton.

**PEST FIGHTING FUNDS IN SIGHT**  
Budget Chief Favors Shift of Boll Worm Money  
Californians in Group Urging \$4,000,000 for Battle  
Fruit Fly Found in Two New Areas of Florida

WASHINGTON, April 23. (Exclusive)—R. N. Wilson of the California Development Association and Entomologist Woglum of the California Fruit Growers Association were two of the committee of twelve which conferred with Director of the Budget Lord today in an effort to obtain transfer of \$4,000,000 appropriated by a previous Congress to fight the pink boll worm in Texas to the fight against the spreading of the dangerous Mediterranean fruit fly from Florida.

According to reports, the Director of the Budget appears to be favorable to the change. With a strong recommendation from the Bureau of the Budget for the proposed transfer, little opposition is expected in Congress to a joint resolution to be sponsored by Ruth Bryan Owen and Herbert J. Drane, Representatives of Florida, making the transfer legally possible.

Earlier in the day Mr. Wilson conferred with President Hoover on the fruit fly situation in Florida. It is understood that the President is favorable to the transfer of funds.

As these conferences were going on reports from Florida showed that infected fruit has been discovered in two new localities in Florida, one at Cocoa and the other at Delton Springs, twenty miles east and north, respectively from the last reported source of infection. It is believed that these findings will have no bearing on the situation other than to increase the territory now under State quarantine which will come under the proposed Federal quarantine.

No statement has been made on the status of the proposed Federal quarantine against the Mediterranean fly. Conferences have been held since the public hearing yesterday, but the redrafting of the quarantine and its agenda regulations have not been completed. This quarantine will be issued, according to late reports, within the week and probably within the next three days.

**NEW TOKIO MAYOR NAMED**  
TOKIO, April 23. (AP)—Zenjiro Morikiri, formerly director of the Municipal Planning Bureau of the Department of Home Affairs, was named Mayor of Tokio today.

**Are You Tired? Forgetful? Nervous? Uncertain? Discouraged?**

Come and enjoy the Pictures, Music, Songs and FREE TALKS!

**Elsie Lincoln Benedict**

At the earnest request of thousands of Los Angeles men and women, will give as her farewell series her world-famous program on

**Brainology—the Science of Brain-Building or How to Grow a New Brain!**

In these wonderful illustrated programs you will learn

- how to cure nervousness.
- how to avoid fatigue.
- how to know what THE SHAPE of your head tells about the KIND of brain you have.
- how to concentrate.
- how to make right decisions.
- how to develop a master mind.
- how to grow an entirely NEW BRAIN.

**AMAZING RESULTS ARE PRODUCED BY SARGON**

Thousands of Sufferers Say Results Are Almost Unbelievable—Sense of Physical Well-Being and Mental Alertness Replaces a Dragging Body and Depressed Mind in Most All Cases of General Debility Due to Improper Assimilation, Impaired Digestion and Poor Elimination, as Well as Blood, Liver and Nerve Disorders.

Dr. Sargon, the celebrated new medicine recently introduced in this city, is given to people who are suffering from what is commonly known as a rundown condition—impaired digestion or improper elimination, the following improvement is noted in the majority of cases:

- appetite increases, the complexion clears; gas, indigestion and hyperacidity are overcome; constipation disappears and a sense of physical well-being and mental alertness replaces a dragging body and depressed mind.

This is accomplished by stimulating and invigorating the normal action three vital organs and fluids of the body upon which good health so largely depends, namely the liver, blood and endocrine glands.

Dr. Sargon contains other ingredients of the most powerful therapeutic value, which report tone and invigorate the entire system and have a tremendous influence on the appetite and digestion.

There are in Los Angeles there are over 150,000 men and women who are victims of these everyday ailments. The majority of them are not sick, they are simply rundown. Many of them are physically strong, but mentally they are struggling with the morning and go half-dead through their work. They lack energy, they are sluggish and they are not keen and they are not able to do their work.

There are still other thousands who are not able to sleep and do not sleep, who suffer from periodic attacks in which they get no rest, and their appetites are poor. Some are troubled with indigestion, gas and bloating. Some are victims of them are victims of constipation—the commonest of the human race—and some are slow and sluggish.

Some of them are victims of the habit of doing things that are not good for them, and they are not able to do their work. They are not able to do their work, and they are not able to do their work.

Dr. Sargon is a natural action three vital organs and fluids of the body upon which good health so largely depends, namely the liver, blood and endocrine glands.

Many of them are physically strong, but mentally they are struggling with the morning and go half-dead through their work. They lack energy, they are sluggish and they are not keen and they are not able to do their work.

There are still other thousands who are not able to sleep and do not sleep, who suffer from periodic attacks in which they get no rest, and their appetites are poor. Some are troubled with indigestion, gas and bloating. Some are victims of them are victims of constipation—the commonest of the human race—and some are slow and sluggish.

Some of them are victims of the habit of doing things that are not good for them, and they are not able to do their work. They are not able to do their work, and they are not able to do their work.

Dr. Sargon is a natural action three vital organs and fluids of the body upon which good health so largely depends, namely the liver, blood and endocrine glands.

Dr. Sargon contains other ingredients of the most powerful therapeutic value, which report tone and invigorate the entire system and have a tremendous influence on the appetite and digestion.

There are in Los Angeles there are over 150,000 men and women who are victims of these everyday ailments. The majority of them are not sick, they are simply rundown. Many of them are physically strong, but mentally they are struggling with the morning and go half-dead through their work. They lack energy, they are sluggish and they are not keen and they are not able to do their work.

## WRITERS LEARN CHOPSTICK USE

Journalists on Way to Japan Reach San Francisco

Fine Art of Eating Taught by Nippon Hosts

Carnegie Guests to be Four Months in Orient

SAN FRANCISCO, April 23. (Exclusive)—At the Nippon Club here tonight twelve American journalists about to depart for a four-month tour of Japan, Manchuria and China were initiated into the fine art of eating with chopsticks and making formal diplomatic salutes. The instructors and hosts were the San Francisco officials of the Nippon Yusen Kaisha, or Japanese Steamship Company. The journalists represent a group of American newspapers. They will tour the Orient as the guest of the Carnegie Endowment for Peace and Education. George A. Finch of the Carnegie Endowment is in charge of the party.

There is neither political nor economic significance in the tour. The journalists will be guests of the Japanese government during their month's stay in Japan. Then they will spend a month in China and Manchuria under the guidance of Japanese hosts. From Port Arthur they will enter China, providing the political weather is favorable, and will spend the third month visiting Peking, Nanking, Shanghai and other Chinese territory.

**WELCOME ASSURED**  
Special interest attaches to the Chinese tour, for seven of the ten members of the Chinese national cabinet are graduates of American colleges. They have been assured in advance a cordial reception and an opportunity to study at first hand the political, social and economic development of modern China.

The journalists met at noon today at a luncheon at the Sir Francis Drake Hotel, where they were the guests of the management. Some were a bit humorous, especially the representatives from New England and Texas, for the hotel is a magnificent history twenty-one stories high. Memories of earthquake and fire made them wish for parachutes in their rooms, especially those domiciled in the twentieth story.

They are the tenderest, whose knowledge of building construction on the Pacific Coast is decidedly limited.

At noon tomorrow they will sail on the Japanese liner Taiyo Maru for Honolulu and Yokohama.

## MEMBERS OF PARTY

Those in the party are: Judd Mortimer Lewis, Houston Post Dispatch; E. Fred Hume, Los Angeles Times; Herbert L. Matthews, New York Times; Wilbur Forrest, Washington Bureau, New York Herald-Tribune; Harry R. Warkentin, Minneapolis Journal; William Phillip Sims, Scripps-Howard newspapers; Francis E. Regal, Springfield (Mass.) Republican; George S. Johns, St. Louis Post-Dispatch; Paul Wright, Chicago Daily News; Francis W. Clarke, Atlanta Constitution; Gideon A. Lyon, Washington Star; and George A. Finch, Carnegie Endowment for international peace, Washington.

## ARKANSANS' WOE COMES IN BUNCHES

Hot Springs City Clerk Charged With Arson and Wife Jailed for Gun Play

HOT SPRINGS (Ark.) April 23. (AP)—The City Clerk of Hot Springs and his wife, Mr. and Mrs. Fred Fowler, were in jail tonight as a result of an early morning fire at the City Hall today and a shooting in which Mrs. Fowler figured last night.

Fowler was arrested after the fire, which caused damage estimated at \$25,000 to the first floor of the City Hall, on which is located the city clerk's office. An audit of his books was started today. Police did not reveal what led them to arrest him.

Mrs. Fowler was arrested last night after she is said to have fired at Mrs. Henry Terry on a downtown street. The shot missed its mark, striking the window of a printing establishment. Mrs. Nettie Connolly, the proprietor, was slightly injured by flying glass. Mrs. Fowler admitted firing at Mrs. Terry, whom she accused of abusing her over the telephone. Both were active in the recent municipal campaign as members of opposing factions.

Fowler denied he had any connection with the fire.

## Questionnaire on Sex Ousts Two

SHAWNEE (Okla.) April 23. (AP)—H. D. Powers, head of the psychology department of the Oklahoma Baptist University, and Berrie C. Wells, a student assistant, have been discharged from the university as a result of a sex questionnaire which they prepared and were having printed in the university print shop, an announcement today by Dr. W. W. Phelan, president, revealed.

The questionnaire is said to be similar to the one which resulted in the discharge of faculty members at the University of Missouri recently. Dr. Phelan said the questionnaire was malicious.

## FOUR HURT IN CRASH

BAKERSFIELD, April 23. (AP)—Four persons, all of Oakland, were injured seriously today when their automobile overturned on the highway south of here. They are Mr. and Mrs. W. C. Thompson, Miss Lorraine Thompson, 17 years of age, and Paul Thompson, 4. They were en route to Los Angeles.

## SNOW COVERS WYOMING

LANDER (Wyo.) April 23. (AP)—The heaviest April snowfall recorded in years blanketed West Central Wyoming today, halting farm operations and seriously interfering with traffic.

## SCHOOL DECIDES POETRY TASTES

National Poll Reveals Many Interesting Facts

Psalm of Life Heads List for Popularity

Longfellow Has Long Lead Among Poets

BY FRERERIC J. HASKIN  
WASHINGTON, April 23. (Exclusive)—America gains her appreciation of poetry from the schoolroom as much today as when the old folks of today were speaking pieces in the little red schoolhouse. The poetry which is read and memorized in the classroom is just about the same poetry which was read and memorized one and two generations ago. The modern school of verse has not penetrated very deeply into the life of the country, because it has not penetrated very deeply into the schools. These are among the conclusions drawn from the facts and figures of the national poetry poll recently concluded by 551 newspapers. The first announcement of the results of this poll, in which 61,972 votes were cast by newspaper readers for their favorite poem, was made several months ago. Time has permitted a more detailed study of these results, and reveals many additional and interesting facts about the popular taste of American men, women and children in poetry. Only the ten most popular poems were then announced. The fifty most popular give a further insight into the poetry which America knows and loves.

## FIFTY POEMS LISTED

Here are the fifty, in the order of their popularity as attested by the votes: "A Psalm of Life," by Longfellow; "The House by the Side of the Road," by Poe; "Thanatopsis," by Bryant; "Crossing the Bar," by Tennyson; "Trees," by Kilmer; "Evangeline," by Longfellow; "Elegy Written in a Country Churchyard," by Gray; "Snowbound," by Whittier; "If," by Kipling; "O, Why Should the Spirit of Mortals Be Proud," by Knox; "The Village Blacksmith," by Longfellow; "The Children's Hour," by Longfellow; "The Raven," by Poe; "Ravens," by Longfellow; "The Vision of Sir Launfal," by Lowell; "The Barefoot Boy," by Whittier; "Old Ironsides," by Holmes; "America for Me," by Van Dyke; "In Flanders Fields," by McCrae; "Paul Revere's Ride," by Longfellow; "L'Envol," by Kipling; "Rock Me to Sleep," by Allen; "The Day Is Done," by Longfellow; "An Old Sweetheart of Mine," by Riley; "The Eternal Goodness," by Whittier; "Lincoln," by Markham; "Invictus," by Henry; "O, Captain! My Captain," by Whitman; "To a Waterfowl," by Bryant; "Somebody's Mother," by Brine; "The Bridge," by Longfellow; "The Rubaiyat of Omar Khayyam," by Fitzgerald; "The Lady of the Lake," by Scott; "Abou Ben Adhem," by Hunt; "Barbara Frietche," by Whittier; "Little Boy Blue," by Field; "The Chambered Nautilus," by Holmes; "In Memoriam," by Tennyson; "The First Snowfall," by Lowell; "The Marches of Glynn," by Lanier; "Enoch Arden," by Tennyson; "Anabel Lee," by Poe; "Recessional," by Kipling; "Each in His Own Tongue," by Carruth; "The Cotter's Saturday Night," by Burns; "America," by Smith; "The Courtship of Miles Standish," by Longfellow; "Excelsior," by Longfellow; "The Charge of the Light Brigade," by Tennyson; "Locksley Hall," by Tennyson.

The votes in the poll were all signed, which revealed various interesting facts besides the main issue of discovering that "A Psalm of Life" is America's favorite poem. Almost exactly 70 per cent of the votes were cast by women, and 30 per cent by men. There was no perceptible difference, however, between the poetry which women like and that which men like. Their votes showed practically the same proportions throughout the list, and among poems which were not among the first fifty in popularity, men and women still voted in about the same ratio.

## PREFER POETRY OF CHEER

The fifty most popular poems show clearly enough that Americans prefer poems with serious, philosophical and religious themes. Among the first twenty-five, three poems by Longfellow are in the class of narrative poetry, "Evangeline," "Hiawatha," and "Paul Revere's Ride," with Whittier's "Snowbound" the only other work which might be called of narrative character. Philosophical best describes a majority of the popular selections, and when we realize that it is for philosophy which Americans look in their choice of verse, it is quite natural that "A Psalm of Life" should be the popular favorite.

The poetry poll demonstrates that the printed pages most familiar to Americans as a source of poetry were those of McGuffey's readers.

Guest scored many ballots, but not more than a handful for any one poem.

## LONGFELLOW AMERICA'S POET

Longfellow is easily established as the favorite poet of America by this poll. Among the fifty most popular poems of the people who read the newspapers, ten are by the New Englander. Tennyson takes second rank by this test, with five poems among the first fifty favorites, while Whittier has four, Kipling three and Bryant, Lowell and Holmes two each.

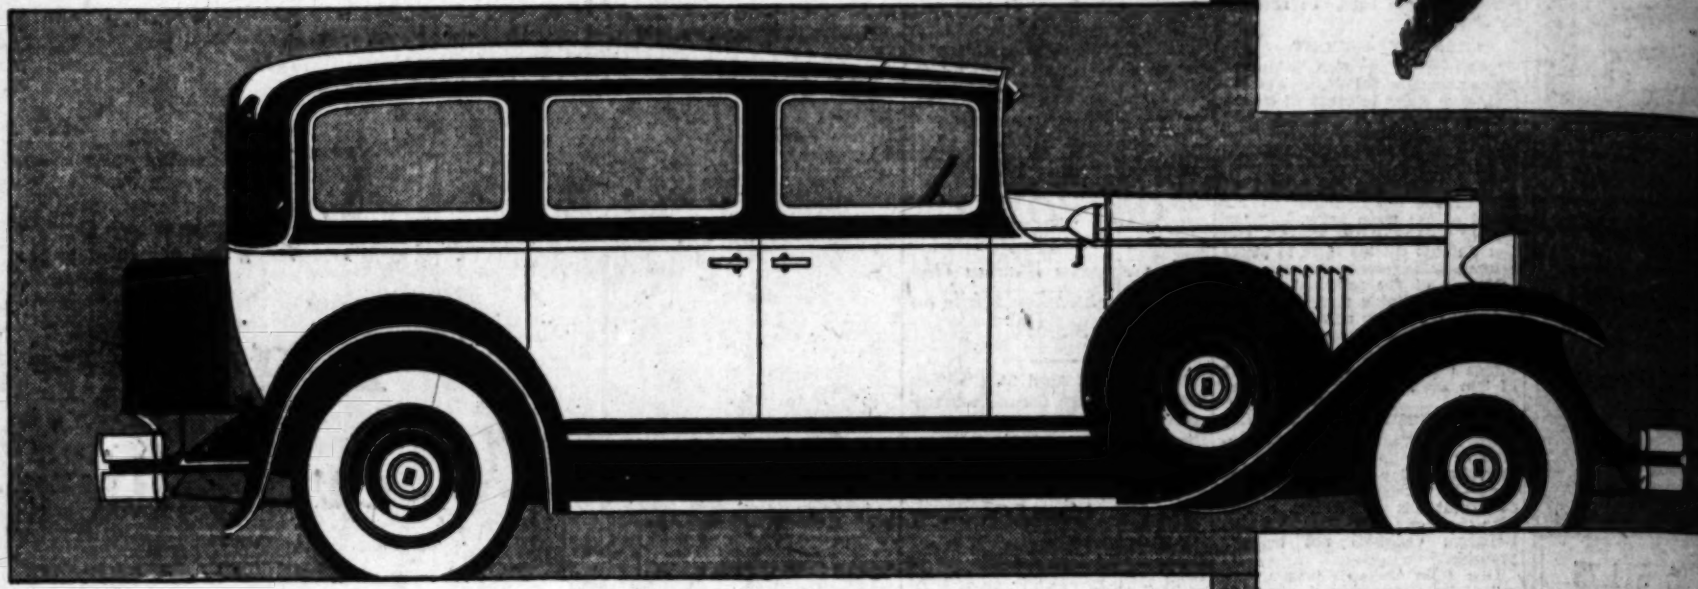

Where are Browning, Keats, Shelley, Byron, Wordsworth and ever so many more? Not in the highest rank of popularity, although among the second group of fifty poems will be found the ode "To a Skylark" and "To a Grecian Urn," as well as "Rabbi Ben Ezra" and "Immortality." "The Ancient Mariner" is also in this group, and "The Charge of the Light Brigade" and "The Highwayman."

## WATER SUIT FILED

STRAITFORD, April 23.—The Empire Water Company has sued Frank Blakeley and others to enjoin the construction and the enlargement of canals to divert water from the plaintiff on the west side of Kings county, northwest of Stratford, to irrigate lands that assertedly are not entitled to the water.

Now you can give her the very car she wants most

# at a remarkable price saving

## Hupmobile slashes all prices in new program of expansion

Ask any well-posted authority in the motor car field what six-cylinder car and what eight-cylinder car made the most spectacular sales increases in the past twelve months... riding on the very crest of popular acclaim!

If his answer is frank and accurate, unquestionably he must say the HUPMOBILE Century Six and the HUPMOBILE Century Eight.

And now the very latest in these smartest cars of the year... with many new and superb refinements... are offered to you at sweeping price reductions, running as high as \$260.00!

These reductions are made possible by HUPMOBILE'S new and vast program of expansion;

by the acquisition of a huge new plant that doubles HUPMOBILE'S production capacity.

Seldom, in all motor car history, has such value been available to motorists in an all-quality car. At their regular prices, the Century Six and Eight were the outstanding values in their class. To get either one of them at a price-reduction is like getting an American gold eagle at a discount. It gives you an extra dividend on an already exceptional investment.

You'll make a mistake if you decide on any car before seeing and checking these extraordinary new HUPMOBILE "buys." Come, take a look and get a thrill!

## Story of Cat Wins Divorce

VISALIA, April 23.—The old story of "Love me, love my dog" has a new version in divorce annals of the Tulare county Superior Court. "Love me, love my cat" apparently expressed the sentiments of Vincent J. Montoya. His wife, Emily Montoya, filed suit for divorce, naming a Persian cat in the role of correspondent, or as having alienated her husband's affections. Among other things, Mrs. Montoya declared that her husband was so fond of the cat that he insisted on sleeping with it in his arms, and that after he had the cat well covered, there was little place left in bed for her. She also stated that her husband forced her to leave home and seek work. They were married in 1925 and separated last December. Superior Judge Frank Lamberton granted the divorce yesterday.

## Dawes Finishes Dominican Task

SANTO DOMINGO (Dominican Republic) April 23. (AP)—The passage of a budget law and the appointment of a director of the budget similar to that office in the United States are among recommendations made by the American financial commission headed by Gen. Charles G. Dawes, which has finished its work here. The commission stated that the general economic and financial condition of the country was inherently sound. The total indebtedness of the republic, foreign and domestic, including \$802,000 owed by sixty-eight municipalities, was estimated at \$22,650,000.

## NEW GRAPE RULE OPPOSED

Kern County Growers Contend That Sugar Content Requirement Now in Force is Sufficient

BAKERSFIELD, April 23.—Grape growers in Kern county, as well as in other San Joaquin Valley grape-producing counties, are opposed to making any changes in the sugar-content requirement for Thompson, Malaga and Muscat grapes, according to reports received here today from meetings at which proposed changes evoked protests.

Growers in this county are said to be of the opinion that 18 per cent for these three varieties of grapes is high enough.

An attempt to carry a resolution in favor of lowering the color standards for export Emperor grapes, packed in sawdust, also met with defeat.

The tendency has been to increase the sugar content requirement of grapes, and many prominent growers have fostered the in-

## Police Exhibit Resourcefulness as Bee Herders

TULARE, April 23.—The role of policeman calls for varied talents, yet something of a new problem was presented members of the local force when they were called upon to herd a swarm of bees. The winged insects, after traveling a while, decided that a small bush at the corner of South K and East I streets was just exactly what they needed as new quarters, and proceeded to set up housekeeping at once. Sidewalk traffic was suspended for more than an hour, while police enlisted more or less expert aid in inducing the runaways into an improvised hive. Following acceptance by the queen of the new establishment, her subjects moved in with little protest. No casualties were reported among the volunteer beemen and the police are wondering "what next."

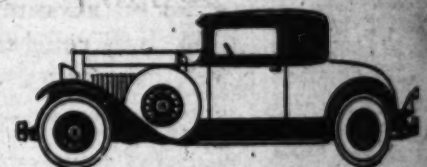

## CHAMBER ASKS END OF HOME LAMPS

VISALIA, April 23.—The Chamber of Commerce here today asked the city fathers to take action to end the use of home lamps. The chamber is the only organization in the city which has a secretary of the chamber of commerce. The chamber is the only organization in the city which has a secretary of the chamber of commerce. The chamber is the only organization in the city which has a secretary of the chamber of commerce.

# IT'S SYNCOPATION SEASON NOW

## BUY-SING-PLAY-LIVE-MUSIC

**S**PRING is in the air! And nature bestirs herself in the joyous rejuvenation of all living things. The hearts of the world are joining in a giant festival of springtime—and music reigns!

For it is Syncopation Season! From time immemorial music has been the language of youth, of springtime, of love. Syncopation—rhythm—tempo—from the beating of primitive Tom Tom, reeds and pipes to the wonderful instruments of the present day the goal has been the same. A means of self expression—a universal language that everyone understands—that finds its answer deep in the heart of all.

And so Syncopation Season comes to Los Angeles—a time to buy—sing—play—live—MUSIC! Your music dealer is making a special effort during this time to bring you more music—better music—and to place it within the reach of everyone. The Syncopation Season Banner, shown above, will be displayed by all co-operating in this event. New music, better music, more music is the watchword.

Now is the time to DO something musical! Learn to play some musical instrument. Thrill with the joy of self-expression that the ability to actually play brings you. For this is Music's Season.

## Victor Records of the Song Hits from "SYNCOPATION"

Hear these numbers at your dealer! They are the numbers from the Musical Picture "Syncopation" being run in honor of Syncopation Season:

**EXPERT NAMED  
PRISONS' RULER**

**Bates Chosen as Federal  
Superintendent**

**Will Have Charge of Five  
Institutions**

**Was Coolidge Appointee in  
Massachusetts**

WASHINGTON, April 23. (P)—Reorganization of the Federal prison administration under the direction of a prominent penologist, Sanford Bates, Commissioner of Correction of Massachusetts, was announced today by the Department of Justice.

"The appointment of Bates," said the announcement, "is a culmination of many years of effort on the part of Assistant Attorney-General Willebrandt, in charge of the prison division, to make this division one of the major scientific branches of the government."

Bates, who will succeed Albert H. Conner, will take office June 1. Conner will stay in the department as long as required to aid the new superintendent to familiarize himself with his duties.

**SALARY INCREASED**  
Bates' acceptance of the superintendency came after Mrs. Willebrandt had endeavored for more

**POEM CAUSES MURDERS,  
BUT POET STILL LIVES**

CHICAGO, April 23. (Exclusive)—Deputy Commissioner of Police Stege declared today that the recitation of a bar-room poem was responsible for three recent murders. William J. Vercoe, an oil and fuel merchant, was shot and killed in a West Side saloon on March 19, after reciting a verse before an appreciative audience. The verse ended like this:

"For he's a coward, a coward,  
"A bum and a dirty coward."  
To dramatize his declamation the orator pointed a finger at a table, selected at random, where William Clifford and Michael Kelly sat.

than three years to persuade him to come into the government service. He declined the offer, however, because the salary is less than he received in Massachusetts. Recent changes in government salary ratings permitted an increase in the pay of the superintendent of prisons and Bates then accepted.

Bates's duties will include the administration of five large Federal prisons and the disbursement of appropriations amounting to about \$10,000,000 annually.

**COOLIDGE APPOINTEE**  
Bates, who is 44 years of age, practiced law in his native State, served in both branches of the State Legislature, and in 1919 was appointed

This designation so offended Clifford and Kelly that they shot Vercoe.

The saloon is owned by a syndicate controlled by Miles O'Donnell. The owners of the saloon were not particularly interested in Vercoe's demise but they were much annoyed by the police attention caused by the shooting.

The avengers of the inn's reputation waited until Clifford and Kelly were out in an automobile April 13. Then they also got into a car for a drive which finished when police found the bodies of the poetry haters alone in the car's back seat.

ed commissioner of the Boston penal institutions by former President Coolidge, then Governor. Since then he has been prominently identified with the American Prison Association.

Attorney-General Mitchell said Mr. Bates will have complete control of the Federal prisons and will receive the full confidence of the department.

**FORMER BOOTLEGGER  
KIDNAPED FOR RANSOM**

DETROIT, April 23. (P)—Fred Begeman, said to be a wealthy former bootlegger, is being held for \$25,000 ransom by kidnapers who have warned relatives that failure to comply with their demands will be "too bad for him."

**FORGERY FOUND  
IN SAN QUENTIN**

**Warden Says Inmate Plies  
Trade in Prison**

**Official's Checks Diverted to  
Probationer's Use**

**Los Angeles Felon Accused  
of Framing Plot**

SAN QUENTIN, April 23. (P)—Warden Holohan of San Quentin prison today revealed that he and other authorities were investigating a plot to alter checks issued at the prison, which he said had resulted in the illegal diversion of at least \$1500.

According to the warden, Francis, who works in an office of the prison administration building, would rub muckilage over the place on the checks where the name of the payee was to be placed. It was done so cleverly that it was not noticed. Then the name was filled in and after the warden signed the checks, Francis would erase the name by removing the muckilage and substitute for the name that of Lester. The checks were mailed to Lester.

**SUMMER CAMPS  
for Boys  
and Girls**

Young folks seldom enjoy the same kind of vacations that appeal to their parents. That is why carefully-constructed and well-supervised summer camps provide not only enjoyable and healthful vacations for the children but also allow the rest of the family to do as they wish.

Parents seeking information on camps for boys and girls may obtain folders and details of camps most fitted to individual requirements from either of The Times Two Information Bureaus—Times Building, Broadway at First, or 621 South Spring street. Telephone Metropolitan 9796.

ser who is asserted to have cashed them at San Francisco banks.

**DOWNFALL LAID TO  
HOLLYWOOD WHOOPEE**

SAN FRANCISCO, April 23. (Exclusive)—John Warren, 27 years of age, asserted to be a member of a wealthy Philadelphia family, returned here today from that city to face bad check charges aggregating \$9000, attributing his downfall to "Hollywood whoopee," police announced.

**RIVER DISASTER  
IN RAIN THREAT**

**Foot Rise Would Destroy  
Mississippi Dikes**

**Highest Water Mark of 78  
Years Approached**

**Iowa, Illinois and Missouri  
Areas Menaced**

QUINCY (Ill.) April 23. (P)—Possibility of rain in the watersheds north of here held the greatest potential danger today for near-by Illinois, Iowa and Missouri lowlands, after prospects of a decline in the Mississippi River yesterday had brought hope that the levees might withstand the highest waters in seventy-eight years. Rain today, in the opinion of veteran observers, would mean that every levee in this region from Keokuk, Iowa, to Louisiana, Mo., would be in imminent danger.

A rise of another foot here probably would send the river through or over all the dikes in this vicinity, it was predicted. The water reached 21.5 feet on the Quincy gauge at midnight.

**HOLE IN LEVEE**  
South Quincy last night faced its most serious situation since the high water began in March. A hole developed in the levee and workmen were kept busy all night to prevent a break. It is estimated that there are approximately \$1,000,000 worth of homes and improved farm buildings in the district, which is one of the most fertile in the endangered section. National Guardsmen remained on patrol duty there.

Concern still was felt today for the Gregory district, north of Canton, Mo., which was partly flooded Sunday night. Hopes that the crest had been reached were based on reports from Burlington, Iowa, Keokuk and other points to the north that the river had either remained stationary or dropped, and that the rivers had fallen since Sunday. Skunk, Cedar, Iowa and Des Moines when they overflowed their banks.

**RECORD NEARED**  
The Fabius River rose yesterday, but no special concern was felt since this stream was the one which broke through in Marion county, Missouri, last Saturday and its damage already has been done.

The present flood is the most menacing that has swept this section in three-quarters of a century. Not since 1851, when the great flood of that year sent the river to 22.5 feet, has the level risen so high or remained high for so long.

The Mississippi first passed the fourteen-foot flood stage this year on March 14; suddenly rose two feet a couple of days later, and had reached the danger stage by St. Patrick's Day. A levee broke in the Indian Graves district March 21, flooding 7000 acres, and another went through the following day, inundating more than 12,000 additional acres.

The water has not yet receded there and is still up to the second stories of some homes.

**EASTERN RIVER  
FLOODS RECEDED**

NEW YORK, April 23. (P)—Rain-swollen rivers in New York, Pennsylvania and New England are receding today after marooning scores of homes, inundating railroads and highways, and causing some loss of life.

Before fair weather brought a gradual recession of the waters the Susquehanna River had reached the highest point in twenty-three years in New York and Pennsylvania. Two deaths were caused by the Susquehanna and Chemung rivers overflowing their banks.

Receding waters in the Genesee River lowlands afforded communication once more with fifty families near Rochester, N. Y., who had been marooned for almost twenty-four hours.

**Liquor Seized  
on Two Ships**

NEW YORK, April 23. (Exclusive)—The steamship Republic recently purchased by the new United States Lines, Inc., but still in the control of the Shipping Board, was subjected to a liquor search this afternoon. Fifteen agents of the customs enforcement bureau worked for several hours, ultimately finding about 400 bottles of assorted liquors scattered through the vessel. The search was made at the Hoboken dock.

The Munson liner Southern Cross, which docked in Hoboken today, also received a search. The latter produced about 600 bottles of assorted liquor—most of it hidden near a saluting gun port amidships.

**Rum Patrolman  
Asked to Resign**

WASHINGTON, April 23. (P)—Assistant Secretary Lowman of the Treasury announced today the resignation of James R. Ingram, a temporary boatswain of the Coast Guard service, who used a machine gun in trying to stop an asserted rum runner on the Miami River recently, had been requested.

**Bills Passed  
by Assembly**

SACRAMENTO, April 23. (P)—The Assembly passed the following bills today:

Assembly Bill No. 609, Byrne, appropriating \$50,000 for the establishment of industrial workshops for the blind in Los Angeles.

Assembly Bill No. 1067, Noyes, relating to the operation of taxes as a judgment or lien against property.

Assembly Bill No. 571, Easley, minor changes affecting the office of the insurance commissioner.

Assembly Bill No. 1065, Williamson, relating to the extermination of plant pests.

Assembly Bill No. 543, Noyes, enlarging the powers of boards of supervisors with relation to the maintenance and repair of roads.

Assembly Bill No. 462, Jones, Yolo county government bill.

Assembly Bill No. 37, Crowley, containing amendments relating to the conduct of State narcotic hospitals.

# Many Hands Make Small Labor (Proverb)

## \$1,000,203.00 ÷ 1811

Ordinarily a problem in long division but in this case a public appreciation of each \$552.29. Most readers will agree, we believe, that even though they had had available the whole \$1,000,203.00 they would have experienced extreme difficulty in finding a more secure and profitable placement of it than by adding it to the \$1,075,000.00 loaned by the largest institutions of their kind in the world, which would have enabled them (had they had also the Knowledge, Organization and Time) to have designed, underwritten, constructed, managed and owned "THE TOWN HOUSE" on the corner of Wilshire Boulevard and Commonwealth Avenue and the business building and 300-car underground garage at 2969 Wilshire Boulevard.

1811 investments averaging \$552.29 each made during our first year of business on exactly the same basis as would have been enjoyed by the possessor of the whole \$1,000,203.00.

Our years of training, experience and knowledge in the choice of the location and the kind of building required, the experience and technical ability of our Architectural and Engineering Departments, plus the wide practical experience of our Construction Department and the large resources of our Rental Department all work under one administrative head for the common benefit.

Most unusual, in addition, is the fact that all this invested capital will be returned out of profits before we derive any income from our part ownership, from which time on the 1812 OF US enjoy the proprietorship of this magnificent property for all time.

Our Officers and Directors wish thus publicly to thank our investors and every individual member of our Sales Department through whom this entire business has been done at retail.

### Woman Found Guilty in Sex Pamphlet Case

NEW YORK, April 23. (AP)—Helen Ware Bennett, 38 years of age, today was convicted of an obscene matter through the publication of a sex pamphlet dealing with the guidance of her two sons.

The case was decided by a Court jury of middle-aged men after forty-five minutes of deliberation.

Mrs. Bennett faces a sentence of five years, a fine of \$100 or both. Her pamphlet was distributed for more than a year by Y.M.C.A. churches and organizations and has the endorsement of many educators and social workers. The pamphlet was titled "The Guidance of the Adolescent." It was written in a simple, direct, and unobscure style.

Mrs. Bennett's attorney would carry the case to the court.

### Textile Strike Parade Stops

GASTONIA (N. C.), April 23. (AP)—The second attempted parade of textile mill strikers here today was broken up by police officers today and Miss Bennett, son, young Communist, was arrested and charged with inciting to a demonstration.

The officers brandished loaded rifles, pistols and night sticks and charged into the parade numbering between 200 and 300. No resistance was offered and the line of march was quickly broken up.

Miss Bennett was released on bond soon afterward.

### Dollar Plans Two New Ships

SHANGHAI (China), April 23. (AP)—Harold Dollar, vice-president of Dollar Steamship Lines, announced today that within a few months the keels of at least two 1000-ton passenger liners for trans-Pacific service would be laid down.

The company also is building two smaller ships for the Philippine Interisland service.

Two new ships should be completed within two years and will each have a first-class and 150 second-class passengers.

### HIGH LIGHTS IN HISTORY 1323

#### The Story of the World War 93—American Sea Power, 1914.

by J. CARROLL MANSFIELD

BATTLESHIP "WYOMING"  
FIRST SHIP OF THE "ARKANSAS"  
CLASS  
CARRIES 12 12-INCH AND 21 5-INCH GUNS.  
2 TORPEDO TUBES.  
COMPLETED IN 1912.

BATTLESHIP "NEW YORK"  
COMPLETED 1914  
SISTER SHIP OF THE "TEXAS"  
CARRIES A MAIN BATTERY OF 10 14-INCH GUNS WITH A RANGE OF 21,000 YARDS.

ARMORED CRUISER "NORTH CAROLINA"  
AN AMERICAN DESTROYER.

AS THE SUBMARINE CONTROVERSY WITH GERMANY THREATENED TO DRAW THE UNITED STATES INTO THE GREAT CONFLICT IN EUROPE, AMERICANS, LOOKING INTO THE STATE OF OUR PREPAREDNESS FOR SUCH AN EVENTUALITY, FOUND OUR NAVY FAR BETTER PREPARED FOR WAR THAN OUR ARMY.

IN SIZE THE AMERICAN NAVY HELD THIRD PLACE AMONG THE ARMADAS OF THE WORLD, BEING EXCEEDED ONLY BY THOSE OF GREAT BRITAIN AND GERMANY. WE HAD ABOUT AS MANY BATTLESHIPS AS GERMANY, AND THE DREADNAUGHTS OF OUR FIRST LINE EQUALLED SHIP FOR SHIP, THE BEST IN EUROPE.

WE WERE, HOWEVER, FAR BEHIND BOTH ENGLAND AND GERMANY IN POWERFUL, MODERN CRUISERS AND DESTROYERS. THE LATTER TYPE OF CRAFT WAS VITALLY ESSENTIAL, AS IT HAD PROVED TO BE THE MOST EFFECTIVE WEAPON AGAINST THE SUBMARINE.

OFFICERS AND MEN OF OUR NAVY HAD ATTAINED A HIGH DEGREE OF EFFICIENCY AND DISCIPLINE, AND COULD BE COUNTED UPON TO UPHOLD THE BEST TRADITIONS OF AMERICA AT SEA. IN HANDLING THE BIG GUNS, NO BETTER MARKSMEN THAN THE AMERICAN TARS COULD BE FOUND ANYWHERE IN THE WORLD.

TOMORROW—CITIZENS' TRAINING CAMP.

## GAS UTILITIES EARNINGS GAIN

Pacific Lighting Subsidiaries in Annual Reports

Los Angeles Company Shows \$1,271,727 Increase

Net of Southern Counties Up \$119,190 for Period

Two large public utility organizations of the city, the Los Angeles Gas and Electric Corporation and the Southern Counties Gas Company, both controlled by Pacific Lighting Corporation, reported yesterday a growth of 30 per cent and 18 per cent, respectively, in net profits for the year closed March 31, last, over the earnings of the preceding year.

Los Angeles Gas and Electric Corporation earned net profits of \$3,579,490, after all charges, equal to \$28.74 a share on the outstanding 6 per cent preferred stock. This compares with \$4,307,762.46 earned in the preceding year, and represents a gain of \$1,271,727.46. There was a balance available for the common, which is held by Pacific Lighting, of \$4,415,044.62.

Gross earnings were \$23,261,615, against \$21,382,241 last year, a gain of \$1,879,374. The net profits after all charges, were equivalent to 23.9 per cent of the gross business, which compares with 20.1 per cent in the preceding year. Operating expenses and taxes were 52.8 per cent of the gross against 55.1 per cent last year.

The favorable statement is ascribed principally to the cold weather that has prevailed here this winter. It was pointed out that the increases were made despite a readjustment of rates last fall which resulted in a curtailment of the company's revenues.

In connection with the rate readjustment, officials declared that the company will benefit by the readjustment during the summer months and it is confidently expected that earnings for the fiscal year ending December 31, next, will show a substantial increase over former years.

Southern Counties Gas Company net profits for the same period reached a total of \$1,353,466, after all charges, including depreciation and amortization. This compares with \$1,154,250 reported earned for the preceding year, and represents an increase of \$199,216.

Gross earnings of this company aggregated \$7,882,591, as compared with \$6,882,514 last year, a gain of \$1,000,077, or more than 10 per cent. Operating expenses and taxes increased \$309,869, or nearly 8 per cent, to \$4,782,551, while interest was cut back about \$80,000 to \$331,971. Depreciation and amortization was increased more than \$150,000 to \$913,614.

## NEW GROUP TO ABSORB UTILITIES

Holding Unit Announced for Federal Water and People's Light

NEW YORK, April 23. (AP)—Formation of a new holding company, United Power, Gas and Water Corporation, to acquire control of Federal Water Service Corporation and People's Light and Power Corporation, with combined assets of approximately \$200,000,000, was announced today.

Through their constituent companies, the Federal Water Service and People's Light and Power corporations supply electric light and power, artificial and natural gas, and water service, operating in twenty-one states. The subsidiaries include California Water Service Company and Arizona Edison Company.

Each of the two companies has a common stock of Federal Water Service Corporation and of People's Light and Power Corporation is entitled to purchase one share of United Power, Gas and Water Corporation Common stock for every six shares held. Preferred stockholders of the two companies have the right to buy one share of preferred in the new corporation for every four held.

Capitalization of the new company will comprise \$4,000,000 in 8 per cent convertible 50-year debentures; 45,000 no par preferred \$2 dividend shares, and 100,000 no par common shares.

## Allis Chalmers Earnings Jump

NEW YORK, April 23. (Exclusive)—Allis-Chalmers Manufacturing Company today reported for the quarter ended March 31, last, profits of \$1,513,571, after taxes equal to \$2.85 a share on 577,235 average common shares issued as compared with \$675,400, or \$2.80 a share on 260,000 shares in the first quarter of 1934.

Unfilled orders on March 31, last, totaled \$12,908,563, against \$9,681,215 on December 31, last, and \$9,972,532 on March 31, 1934. Bookings for the first quarter aggregated \$13,560,192, against \$9,270,537 in the same period of the previous year, while sales billed were \$9,943,853, against \$6,415,353.

## HERSHEY CHOCOLATE REPORTS EARNINGS

NEW YORK, April 23. (Exclusive)—Hershey Chocolate Corporation today reported for the March quarter net income of \$2,360,140, equal after allowing for 6 per cent prior preferred dividends and \$1 additional cumulative preference dividends to \$2.48 a share on 800,000 common shares, against \$1,642,760, or \$1.52 a share in the 1934 quarter.

Unfilled orders on March 31, last, totaled \$12,908,563, against \$9,681,215 on December 31, last, and \$9,972,532 on March 31, 1934. Bookings for the first quarter aggregated \$13,560,192, against \$9,270,537 in the same period of the previous year, while sales billed were \$9,943,853, against \$6,415,353.

## AMERICAN ICE NET EARNINGS ADVANCE

NEW YORK, April 23. (Exclusive)—American Ice Company reported today net income for the March quarter of \$58,007 after all charges, but before Federal taxes, equal to \$1.36 a share on 42,600 common shares outstanding, against \$294,603 reported for the same period of 1934 or 10 cents a share.

## MERGER RUMORS WARMER

New Story Suggests Oil Discussions May Come to Head Soon; Petroleum Trust Figures

More gossip was circulated yesterday concerning the much talked about consolidation of a number of oil companies around Sinclair Consolidated as the nucleus. While this rumor, involving Sinclair Consolidated and Richfield Oil, was denied by E. W. Sinclair, president of the former company, there is ground for believing that discussions for the combination of four or five large companies are getting warmer and may come to a head at any time.

Other developments, moreover, suggest that the Petroleum Corporation of America, the recently formed oil share trust, is the leading spirit in the conversations now under way for the organization of a new oil company. Petroleum Corporation is the controlling owner in three companies that logically should figure in such a project, and it is understood to have the dominant voice in a fourth.

**PROGRAM OUTLINED**  
When the Petroleum Corporation was formed, the organizers transferred to the new company the large block of Sinclair Consolidated acquired by the Outen interest—300,000 shares of Prairie Oil and Gas Company, and 550,000 shares of Prairie Pipe Line Company. In themselves these companies represent a well-rounded unit, but the petroleum industry generally is under the impression that the program is more ambitious.

Inclusion of another eastern refining company and of a strong Pacific Coast unit to round out the operations of the proposed combination is the popular conjecture. In this connection it has been reported that the Petroleum Corporation, or its affiliates, now is in possession of the controlling interest in Atlantic Refining, and that this company will be brought into the consolidation.

On the Pacific Coast end, both Union and Richfield have been mentioned. It is probably true that tentative proposals have been made to both companies, but there is nothing yet to indicate that either company has been able to reconcile its ideas of value with those of the principals.

In either case it is likely that the eastern group will attempt to work through the open market, though the Petroleum Corporation, under its charter, has the right to trade in oil stocks. If anything materializes it will come through negotiations with the principals.

**TRAFFIC UNIT STRONG**  
Building of such a company to include Sinclair Consolidated, Prairie Oil and Gas, Prairie Pipe, Atlantic Refining, and either Union or Richfield, would represent a traffic unit of considerable importance. The operations of the two Pacific Coast companies do not require review, but not so much detail knowledge of the others, particularly the Prairie companies.

Both are former Standard Oil subsidiaries. Prairie Oil and Gas is one of the largest factors in the Mid-Continent, producing approximately 74,000 barrels of crude daily, and buying 100,000 barrels daily for pipeline transportation. The system has a delivery capacity of 300,000 barrels daily.

## Bankers Return From Trip East

Willis D. Longyear and William R. Morehouse, vice-presidents of the Security-First National Bank, returned yesterday from Edgewater Park, Minn., where they attended the meeting of the American Bankers' Association. Mr. Longyear made the trip aboard a new de luxe Pullman brought west for service in the Western Air Express.

Mr. Morehouse was accompanied by W. E. Albig, deputy manager for the association, who came west to complete arrangements for the Pacific Coast regional conference of the savings bank division to open in San Diego tomorrow. Mr. Morehouse will be one of the speakers. Both bankers report that a large attendance is expected from the East for the annual convention of the association to be held in San Francisco next October.

## Pierce-Arrow Profits Gain

BUFFALO, N. Y., April 23. (AP)—The Pierce-Arrow Motor Car Company and subsidiaries showed net profit of \$448,331 for the quarter ended March 31, contrasted with a loss of \$339,653 in the corresponding period last year. These earnings are equal to \$1.86 a share on the Class A stock, after reserving preferred dividends for the full quarter. All of the class shares, which carry control, are owned by the Studesaker Corporation.

A. R. Erskine, chairman of the board, announced that first-quarter sales gained 61 per cent over the same period last year. Unfilled orders total more than 2000 cars.

## Bank Official Resigns Post

Resignation of G. L. Alexander as vice-president of California Bank and vice-president and director of California Group Association was announced yesterday by A. M. Chaffey, president of the bank. Mr. Alexander's resignation is effective the 30th inst.

"It is with regret that I announce Mr. Alexander's resignation," said Mr. Chaffey. "For the past eight years he has occupied a responsible position in the California Bank group, and he is leaving with the good wishes of myself and all my associates." Mr. Alexander has not yet announced his plans for the future.

## INCOME OF FINANCIAL UNIT TOLD

Seaboard Dairy Credit Reports First Quarter Net at \$80,345

Net profits of the Seaboard Dairy Credit Corporation for the first quarter ended March 31, last, totaled \$80,345 after all charges, including contingent reserves and provisions for Federal income taxes, equal to \$1.25 a share on the 64,250 shares of no-par-value common stock outstanding. It was announced yesterday by the company.

The company, preferred and common stock of which was recently listed on the Los Angeles Stock Exchange, began operations at the beginning of the year, having taken over the business and assets of the Seaboard Acceptance Company.

The acceptance company earned \$97,114 during 1934, equal after preferred dividends to \$2.50 a share on the same common capital of the Seaboard Dairy Credit. The first-quarter earnings are expected to be substantially improved as a result.

Dairy activity was somewhat retarded during the early part of the year by the local drought and disease. Officials stated, however, that this situation was entirely cleared up by March 3 and that future earnings are expected to be substantially improved as a result.

Gross earnings for the quarter closed March 31, reached an aggregate of \$129,868. Expenses, including depreciation, were \$49,523, leaving a net of \$80,345. Preferred dividends of \$40,000 were paid, leaving a balance of \$40,345 for the common.

## Daily Average Output of Oil Gains Sharply

NEW YORK, April 23. (AP)—The daily average gross crude-oil production in the United States increased 34,800 barrels for the week ended the 20th inst., totaling 2,971,900 barrels, says the weekly summary of the American Petroleum Institute.

The daily average production of California was 1,751,550 barrels, an increase of 34,800 barrels. The daily average production of the United States was 2,971,900 barrels, an increase of 34,800 barrels.

Daily average imports of petroleum at principal ports for the week were 304,000 barrels compared with 238,143 for the previous week and 219,500 for the four weeks ended the 20th inst.

Daily average receipts of California oil at Atlantic and Gulf Coast ports for the week were 60,714 barrels compared with 35,386 for the previous week and 73,535 for the four weeks ended the 20th inst.

## Inquiry Begun on Offering of Ford Unit Stock

NEW YORK, April 23. (AP)—Offerings of stocks of foreign subsidiaries of the Ford Motor Company and in the aviation companies were under investigation today by the State Attorney-General's office.

Watson Washburn, deputy attorney-general in charge of the bureau of securities, said about twenty concerns offering Ford stock were under investigation. Some of them, he said, after accepting deposits have apparently made no effort to deliver the stock and have been found to be backed by men with unsavory reputations.

While no cases have been found where depositors have been unable to obtain return of their deposits, he declared, an old dodge to use good stocks as bait to entice investment in doubtful stocks.

He said in the aviation field agencies have been found recommending purchase of certain issues of reliable backing which later net a market profit and put the investors in a mood where it is sometimes easy to persuade them to buy issues in which the elements are not so good.

## Kinner Mapping New Financing

Directors of the Kinner Airplane and Motor Corporation are expected to take a definite announcement early next week setting forth a new plan of refinancing for the company which is now being worked out with Bayly Brothers, fiscal agents, and the same Eastern bankers that were associated with the plan that was recently covered and later discarded. It was learned yesterday.

Robert Porter, chairman of the Kinner board, said that directors are continuing their efforts to work out a new plan of refinancing that will result in additional working capital and provide for the plant expansion necessary to meet the demand for Kinner motors. Considerable progress is being made toward this end, he said, is expected to be favorably endorsed by stockholders.

## STOCK SPLIT DENIED

CHICAGO, April 23. (Exclusive)—L. J. Drake, president of the Union Tank Car Company, starts that there is absolutely no foundation for the report that the company is contemplating a split up of the common stock.

## NEW VIEW ON REPARATIONS

Dr. E. C. McGuire, Economist, Says Rejection of Allies' Terms by Germany Only Logical Course

BY JOHN F. SINGLAI  
(Copyright, 1935, by North American Newspaper Alliance.)  
NEW YORK, April 23.—Dr. E. C. McGuire of Washington, economist and author of that famous book, "Germany's Capacity to Pay," has just returned to the United States after two months in Europe, spent in giving a series of economic and financial lectures in important universities in Italy and Germany.

He said yesterday that the position which Dr. Schacht, head of the German delegation, took in his controversy with the Reparations Commission, is in many respects the only logical position he could take in view of the present conditions in Germany.

"Even considering Dr. Schacht's figures of about \$200,000,000 a year, the Federal Reserve Act can be amended to meet the situation. The difficulty today is that there is much confusion about just what the Federal reserve should do."

Many leading businessmen oppose the position taken by the Federal reserve. In addition they estimate that Germany can pay, at most, one-third to one-half annually, unless some way is made for her to increase her export business.

"Germany has been living on borrowed money ever since the Dawes plan went into effect. Yet, over the close of the war, she could not otherwise have carried out her part in the plan. Now, with her borrowings growing heavy, her interest charges growing larger, her export business hobbled by tariffs, she realizes that this matter must be settled finally on the basis of earnings."

"The position of Dr. Schacht, while it did shock the world, is not playing in my opinion, Flah speaking now is the wisest policy. The world should know how Germany feels about it, and then it can act much more intelligently."

The real fact is that Germany is loaded with debt today, her trade is not expanding as it should, her unemployment is very serious, and there is no way by which she can pay those debts, unless she has the opportunity in an expanding market. Why should she agree to pay a large sum of reparations when she knows in advance it will be impossible for her to meet the bill? Germany may be lazier, but she is always frank."

This is a new view.  
While Charles E. Mitchell suggests that the Federal government relieve stock market operators of the heavy Federal tax on their profits, Congressman McFadden, chairman of the House Banking Committee, urged that the Federal Reserve Act be amended to make bond and stock collateral acceptable for rediscount at Federal Reserve banks.

Others have suggested that the Federal reserve rediscount rate itself be fixed by Congress, a most undisturbed suggestion. Doubtless, there will be much discussion at the present special session of Congress of the Federal reserve policy, but nothing will be done at this session. Many believe it would be better to give the Federal reserve authority to issue currency in the form of policy finally work out.

Let the Federal reserve demonstrate its position before anything else is done.

**WHITE ROCK MINERAL IN QUARTERLY REPORT**  
NEW YORK, April 23. (Exclusive)—White Rock Mineral Springs Company today reported its March quarter consolidated net income of \$217,146, equal after first preferred dividends to \$3.48 a share on 110,000 shares of 5 per cent non-cumulative participating second preferred stock and to 73 cents a share on 250,000 common shares against \$216,150 in the March quarter of 1934 or 73 cents on the common stock.

The company's earnings for the quarter were \$217,146, equal after first preferred dividends to \$3.48 a share on 110,000 shares of 5 per cent non-cumulative participating second preferred stock and to 73 cents a share on 250,000 common shares against \$216,150 in the March quarter of 1934 or 73 cents on the common stock.

**COPPER MARKET TONE UNSTEADY**

Little Reported Available at Present Low Level

Statistical Position of Metal Basically Strong

Zinc Unchanged; Lead Sags on London Weakness

**BY CHARLES F. WILLIS**  
(Editor, The Mining Journal.)  
The breaking of the market in the metals has continued this week and now only 18 cents delivered is offered for copper, but there is little inclination to sell at this price.

London continues weak, further drops are to be expected. Domestic shipments of lead into consumption totaled 72,774 tons during March. This is the largest monthly total since these figures were started in the latter part of 1928. The February shipments were 58,428 tons and January, 65,279 tons.

**LEAD BUYERS HESITANT**  
The recent continuous dropping of the lead price has made buyers hesitate about coming into the market. Lead started the first of this year at 6.65, gradually increased and reached a peak of 7.75 on March 24th.

**KEYS TO SUCCESSFUL INVESTING**  
It is not necessary to invest blindly. The most successful investors, the great insurance companies, trust companies and large banks, make a constant study of conditions and factors influencing yield and security.

**FISHER'S WEEKLY INDEX**

(Copyright, 1929, by Irving Fisher.)  
The following table shows the average movement from week to week: (1) of the wholesale prices of 200 representative commodities (from Dun's Review), and (2) of the purchasing power of the dollar.

Date	Index Number	Purchasing Power of Dollar
1920-May	100.0	100.0
1922-January	100.0	100.0
1923-January	100.0	100.0
1924-January	100.0	100.0
1925-January	100.0	100.0
1926-January	100.0	100.0
1927-January	100.0	100.0
1928-January	100.0	100.0
1929-January	100.0	100.0

at the close of last month were less than at the end of February.

**ORDERLY MARKET SOON**  
Answering an inquiry regarding the basic conditions in the copper industry, the Copper Exporters, Inc., stated in part: "The decline in price began in the European speculative market and was augmented by an offering for resale of copper from Europe in this market shaking confidence and causing demand to cease."

**Midland Steel First Quarter Earnings Rise**  
NEW YORK, April 23. (Exclusive.) Midland Steel Products Company today reported for the first quarter of 1929 net income of \$1,093,558 after depreciation but before Federal tax and profit-sharing, equal to \$8.27 a share on 40,192,000 of 8 percent participating preferred stock and to \$4.04 a share on 50,000 common shares.

**STEEL PROFITS Gain Sharply**  
PITTSBURGH, April 23. (Exclusive.)—Jones & Laughlin Steel Corporation, issuing today its March quarter earnings statement, announced the declaration of an extra dividend of 1 per cent on the common stock payable June 1 to stockholders of record May 13.

**SALES OF AVIATION STOCKS LEAD RAILS**  
TOTAL FOR FIFTEEN MONTHS SHOWN HIGHER BY \$132,786,883  
Aviation is far outdistancing the railroads in volume of stocks sold for new capital, according to Adams & Peck, stock and transportation specialists, who point out that in the first three months of 1929 \$93,406,125 of new money was derived by the aviation industry from the sale of stock, and none by the railroads.

**THE RUBBER MARKET**  
NEW YORK, April 23. (Exclusive.)—The rubber market which developed in the first three months of 1929 was continued today when strong interest centered in the rubber market. The market was not so much in the hands of the public as it was a few days ago.

**HAYES BODY OUTPUT**  
**AT NEW HIGH LEVEL**  
 —————  
**DETROIT, April 23. (Exclusive)**  
 With a marked increase in Chrysler and Marmon releases, Hayes Body Corporation production schedule for the current quarter calls for 60,000 bodies which will bring the first six months output up to a new high level of 90,000 bodies which compares with 40,000 produced in

er, declared today. The output for the first quarter totaled 30,000 beds, a figure somewhat lower than expected due to the decrease in army orders on Plymouth and De Soto units.

**BOND ISSUE PLANNED**

**SAN FRANCISCO**, April 23. (Ex-Press)—Southern Sierra Power company has applied to the California Railroad Commission for authority to issue and sell \$708,500 in first and refunding mortgage bonds. Proceeds would be used to include the treasury for expenditures used in additions and betterments.

# "Something for Nothing"

The investor who profits through his investments is not led into projects promising "something for nothing," but places his faith and money in basic industries paying a good rate of interest upon the capital invested.

The Southern California Edison Company does not offer "something for nothing," but points to its past record of uninterrupted dividends on all securities for a period of thirty years as evidence of its soundness.

The steady growth of this company; its management, often called by bankers and financial men "one of the best utility managements in America"; the rapidly growing territory served with electricity by the company; the high loan value and marketability of all Edison securities—all justify the investment by even the most conservative of investors.

Fill in the coupon below and mail for full information regarding Edison securities.

LAMBERT AIRCRAFT ENGINE CORPORATION
AVIATION ACCESSORIES CORPORATION
MONO AIRCRAFT CORPORATION

## AVIATION ACCESSORIES CORPORATION

The Company plans also to develop other activities in the field of aviation.

**Business:** Lambert Aircraft Engine Corporation will acquire the aircraft engine business of the Velsa Motors Corporation of Moline, Ill. The manufacture of aircraft engines was undertaken in April, 1928, and since that time 325 engines were sold.

Approximately 90% of small planes, in the 60 H. P. class, produced and sold in this country during 1928 were powered with the predecessor Company's engines.

The development of these engines in less than a year's time at comparatively nominal expenditure is an outstanding accomplishment in the industry.

Mono Aircraft Corporation will acquire all the assets of Mono Air-Craft, Inc., of Moline, Ill., and will continue the manufacture of the well-known line of monoplanes previously manufactured by that company, as follows:

The Monocoque, the most popular of the three planes, is America's first successful small airplane, in the 60 H. P. class, selling at a popular price to be put in quantity production.

The Monoprop, a 2-place open monoplane training ship, and the Monoduch, a 4-place cabin monoplane.

The manufacture of these planes was started in February, 1928, since which time 240 planes have been sold with only a moderate expenditure for advertising and sales promotion.

Aviation Accessories Corporation, which has recently been organized, will manufacture and distribute accessories and equipment for aircraft.

**Earnings:** The manufacture of engines and planes was reported by the predecessor companies to have shown a small profit. This is considered a very favorable record for the initial period of operations, when considerable time and money were expended in design, development and testing.

An of March 1, 1929, Distributors' Contracts called for in excess of 300 planes and 300 engines, of which it is expected that more than 100 planes and 100 engines will be shipped in the near future.

The consolidated earnings of Allied Aviation Industries, Inc., should greatly benefit from the increased and more efficient production, and the greater purchasing power and concentrated sales efforts of the new Company.

**Purpose of Issue:** The proceeds of the sale of this issue of stock will be used in acquiring assets of the predecessor Companies and Aviation Accessories Corporation; and to provide adequate working capital for the operation of the Company. For the present, manufacturing operations will continue in the factory at Moline, Ill., which the Company has under lease.

**Assets:** The consolidated balance sheet of Allied Aviation Industries, Inc., and subsidiaries as of January 31, 1929, after giving effect to the present financing (and as certified by Messrs. Troch, Niven & Co.), shows: Current assets, \$399,814, current liabilities, \$45,708, and net current assets, \$354,106; cash, \$358,927, equivalent to \$4.87 per share of stock to be presently outstanding; net worth, \$1,168,441, equivalent to \$16.53 per share.

**Management:** It is expected that the entire management and personnel which have developed and successfully manufactured and sold the Companies' products will be retained by the new Company.

**Remarks:** While the future of aviation appears assured, the industry will experience many vicissitudes before becoming thoroughly stabilized. Consequently, any investment in the industry must be regarded in the light of a speculation.

### Board of Directors:

The Board of Directors of Allied Aviation Industries, Inc., will include the following:

<p><b>Floyd Augustine, St. Louis</b> President, Augustine &amp; Company Director, New Central Office Company</p> <p><b>E. G. Burkham, St. Louis</b> Capitalist</p> <p><b>Hugh E. ## THE WEATHER

(Official Report)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, April 23.—(Reported by H. R. Herber, Meteorologist.) At 5 o'clock a.m. the barometer registered 30.1; at 8 a.m. 30.3. Thermometer for the corresponding hours showed 50 and 60 deg. Relative humidity, 8 a.m., 83 per cent; 9 a.m., 84 per cent. Wind, S. by E. 10 m.p.h. Visibility, 5 miles; 9 a.m., 5 m.p.h.; 10 a.m., 5 m.p.h. Clouds, 40 deg. Rainfall for 24 hours, 1.21 inches; normal to date, 1.61 inches; last season to date, 8.1 inches. Barometer reduced to sea level.

Light rain has fallen during the past twenty-four hours in the Atlantic States and the Northern Plains States and the northern portion of the Rocky Mountain country. The temperature was a little below normal this morning in the Ohio and Middle and Lower Mississippi valleys, but generally near the normal in other portions of the country. A cold front is moving southward from the north, bringing a fair weather interval yesterday, with moderate temperature. Fair weather may be expected in Los Angeles and vicinity Wednesday, with normal temperature. Moderate northerly winds will prevail.

BUN, MOON AND TIDES.—Los Angeles, April 23, 1932. Sunrise, 6:11 a.m.; sunset, 7:28 p.m.; moon rises, 9:47 a.m.; sets, 10:11 p.m. Low tide, 3:45 a.m. and 3:06 p.m.

MINIMUM AND MAXIMUM TEMPERATURES from the country's four Southern California stations: Max. Min. Imperial, 89 49; Los Angeles, 85 49; Santa Monica, 85 49; San Diego, 85 49. Wind, S. by E. 10 m.p.h. Visibility, 5 miles; 9 a.m., 5 m.p.h.; 10 a.m., 5 m.p.h. Clouds, 40 deg. Rainfall for 24 hours, 1.21 inches; normal to date, 1.61 inches; last season to date, 8.1 inches. Barometer reduced to sea level.

For Los Angeles and vicinity: Fair Wednesday and Thursday, with moderate temperature.

STATE FORECAST  
SAN FRANCISCO, April 23.—Weather: Partly cloudy; fair, with moderate temperature. Wind, S. by E. 10 m.p.h. Visibility, 5 miles; 9 a.m., 5 m.p.h.; 10 a.m., 5 m.p.h. Clouds, 40 deg. Rainfall for 24 hours, 1.21 inches; normal to date, 1.61 inches; last season to date, 8.1 inches. Barometer reduced to sea level.

For Los Angeles and vicinity: Fair Wednesday and Thursday, with moderate temperature.

PHOENIX (Ariz.) April 23.—Forecast for Arizona: Wednesday and Thursday fair; little change in temperature.

COLORED RIVER  
YUMA (Ariz.) April 23.—(Exclusive Dispatch from U. S. Department of Agriculture.) Colorado River, 9:54 feet. Discharge, Tuesday, 22,000 cubic feet.

TEMPERATURE  
Stations—Conditions, 5 p.m. Max. Min. Imperial, 89 49; Los Angeles, 85 49; Santa Monica, 85 49; San Diego, 85 49. Wind, S. by E. 10 m.p.h. Visibility, 5 miles; 9 a.m., 5 m.p.h.; 10 a.m., 5 m.p.h. Clouds, 40 deg. Rainfall for 24 hours, 1.21 inches; normal to date, 1.61 inches; last season to date, 8.1 inches. Barometer reduced to sea level.

## NOTICIAS MUNDIALES DE ULTIMA HORA

(Official Report)

NOTAS TELEGRAFICAS  
Se celebra la Reconstitucion de Yokohama  
YOKOHAMA, Abril 23.—El emperador del Japon, cumpliendo su habitual reclusion, asistio hoy a las fiestas de Yokohama, donde se celebraba la conclusion del programa de cinco años y medio de reconstruccion, contados a partir del desastre terremoto del primero de Septiembre de 1923.

Claramente se vio que el emperador Hirohito estaba de lo mas impresionado al contemplar el cambio que se ha operado al desde Octubre de 1923, época en que, como principio regente, visitó el castillo de Tokio, donde se encontraba el gobierno provisional.

Hoy se encontró con una ciudad repleta de todo a todo, trasada por los sistemas modernos, con amplias avenidas pavimentadas, nuevos parques, puentes nuevos a todas las alturas, muchas decenas de gran edificios, muchos hoteles, decenas de miles de nuevas residencias, y medios modernos de embarque completamente restaurados. Cuenta Yokohama con una población de más de 500,000 habitantes; es decir, mayor que la que tenía antes del temblor de 1923.

El emperador pasó el día inspeccionando el establecimiento del gobierno para acondicionar la sede, las oficinas municipales, los edificios mercantiles, museos, escuelas y oficinas de gobierno. Desde una plataforma levantada ad hoc contempló la ciudad a vista de pájaro.

Defendiendo la Gran Fortuna que Tiene en sus Dedos  
PARIS, Abril 23.—Si las plenas y patrias aseguran a las veces sus manos, ¿por qué no ha de hacer pito tanto el campeón de peñados del mundo?

Y, no habiendo razón que a ello se oponga, Christian Reynolds acaba hoy de proceder a una serie de \$40,000 para protegerse contra posibles accidentes a sus desastrosos dedos, que hace poco dieron un condicional permanente en catorce y medio minutos de labor.

"Mi arte, como el de Paderewski, se funda en la habilidad de mis dedos," manifiesta el señor Christian.

Este afamado peñador declara con absoluta convicción que ya nunca volverá a estar de moda pelo largo en las mujeres, pues ya éstas están hechas a la gran comodidad de la melena corta, y nunca volverán al pasado engorro de las horquillas y los peinados de gran aparato.

Curry es el Nuevo Jefe de Tammany Hall  
NUEVA YORK, Abril 23.—John F. Curry, rico asegurador, que ha sido desde hace muchos años jefe de distrito en los barrios del oeste, fue elegido hoy jefe del Tammany Hall, en sustitución de George O'Connell, que ha dimitido.

El escrutinio arrojó los siguientes votos: Por Curry, 11-1; por Edward J. Ahern, del cuarto distrito, 10-2.

Martin G. McCue, que hasta hace poco parecía que iba a recibir el cargo de jefe de distrito, se retiró antes de comenzar la votación, y sus comitentes dieron su apoyo a Ahern.

Después de la votación, que fue unánime, se celebró una recepción en el Hotel City Club.

### Position at Mercy of France Means Disintegration

The power to disintegrate the British Empire will come to rest inevitably in the hands of the French, declared Prof. F. C. Schiller, professor of international law at the University of California, in a lecture given at the University of California yesterday.

Freedom of the seas means the end of the British Empire, he asserted. The British Empire is a collection of islands and islands, and the only way to keep them together is by the power of the sea.

This apparently true statement, however, was met with a sharp rejoinder by the audience.

"The British Empire is not a collection of islands," said one of the audience members. "It is a collection of people who are united by a common language, a common religion, and a common history."

Schiller, however, insisted that the British Empire is a collection of islands, and that the only way to keep them together is by the power of the sea.

He pointed out that the British Empire is a collection of islands, and that the only way to keep them together is by the power of the sea.

He pointed out that the British Empire is a collection of islands, and that the only way to keep them together is by the power of the sea.

### BAKERSFIELD KEEPS OGDEN AS MANAGER

New Members of Council Outvoted in Alignment After Reorganization

BAKERSFIELD, April 23.—The city council today voted to keep O. G. OGDEN as manager of the city, after a reorganization of the city government.

The council, which met in a special session, voted 10 to 4 to keep OGDEN as manager.

The council also voted to reorganize the city government, and to elect new members of the council.

### BARITONE'S WIFE TAKES UP WRITING

Mrs. Grace Tibbett Holds Contracts from Smart Set and Photoplay Magazine

After waiting until her famous husband had been established through the world of the stage, Mrs. Grace Tibbett has taken up writing.

Mrs. Tibbett, who is the wife of the famous baritone, has held contracts from the Smart Set and Photoplay Magazine.

She has written several plays, and has been successful in the field of writing.

### CEMENT-PLANT LINK SHATTERED

Expert Witness at Hearing Flees from Stand

Naval Architect Confused by Bell Scheme Foes

Planning Commission Holds Another Inquiry

One of the links in Alphonzo Bell's Santa Monica cement scheme cracked last night when one of his so-called expert witnesses appearing before the City Planning Commission, where Bell has requested a permit to operate, was forced to leave the stand in confusion and the majority of his testimony was stricken from the record on the ground that he was not qualified to answer.

### PLANE CRUSHES AUTO IN STREET

Pilot, Mechanic and Driver Escape Miraculously

Fliers Make Forced Landing on Avenue 50

Craft Hits Power Line and Falls on Car

Two aviators and an automobile driver miraculously escaped death yesterday when an army De Havilland airplane en route to March Field from Griffith Park airport made a forced landing on a 2000-foot altitude on North Avenue 50 near Hub street, tore through a 2000-volt power line, and crashed into an automobile sedan on which it landed in the street.

### SCIENTISTS PICK THEIR OFFICIALS

Archaeological Body Has Annual Meeting Here and Names Alexander Leader

Representatives of the principal universities and colleges of Southern California and delegates from the Los Angeles County Museum, the Southwest Museum and the Museum of Anthropology of San Diego yesterday convened at Highland Park for the first annual meeting and election of officers of the Southern California Archaeological Society.

### CHEF STARS IN FOOD SHOW

Mrs. Wyman's Demonstration Draws Record Crowd to Opening of Household Exhibit

[Full Page of Pictures on Page 15, Part II]

As official hostess of the annual Food and Household Show, Mrs. Mabelle (Chef) Wyman, culinary expert of the Los Angeles Times, yesterday attracted a crowd which went far beyond the capacity of Ambassador Hotel Theater. It was of such tremendous extent that Managing Director Waldo T. Tupper of the show ordered that doors of Ambassador Auditorium be opened fully two hours ahead of the regular time.

### CHARLIE CHAPLIN DYES IN HAIR-RAISING SCENE

Women dye their hair red, black, yellow and other colors of the rainbow but that's no sign men can't do it, too.

Charlie Chaplin, the film comedian, established this when he visited a beauty parlor.

Chaplin dyed his hair, however, not to set a fad or a new style in Hollywood but for business reasons—to hide the streaks of grey hair, particularly about the temples, from the tell-tale camera lens.

### 'OSCEOLA' GIVEN PREMIERE

Capacity Attendance Grooms Opening of New McGroarty Play at San Gabriel

California paid token of approval to the history and legend of its sometime rival, Florida, in a distinctive event of the theater last night at the Mission Playhouse in San Gabriel. The occasion was the premiere of John Steven McGroarty's "Osceola," retelling early nineteenth century events in the peninsular southern State that in the past few years has become famous as an eastern winter playground.

### FACTORY TO BE ENLARGED

Willis-Overland, Inc., Contracts for Local Plant Addition to Cost \$1,000,000

Factory additions costing \$1,000,000 are to be made to the Pacific Coast plant of Willis-Overland, Inc., construction to start immediately to allow a one-third increase in production schedules.

This fact was revealed here yesterday when it became known that the J. V. McNeil Company who handled the construction contract on the original plant which was opened formally last February have contracted to build the additional structure. The plant is located on East Randolph street just east of Maywood, on the tracks of the Los Angeles Junction Railway.

### AUNT HET

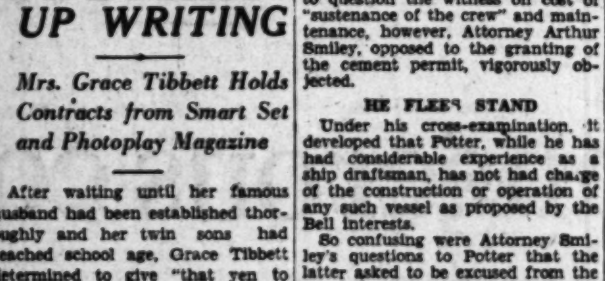

By Robert Quillen

"Ella wasn't satisfied with her operation. It helped her some, but the stitches were so wide it left a pucker."

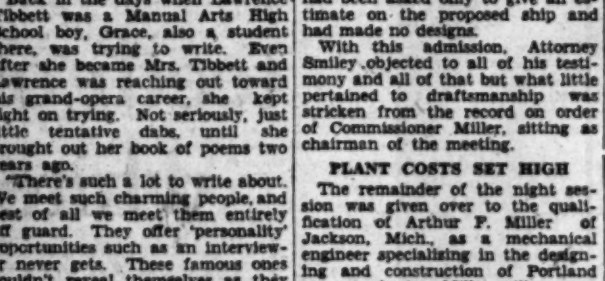

(Copyright 1928, Publishers Syndicate)

# Mysterious Man and Woman Hunted in Cooley Murder Inquiry

## PAIR NOTICED FLEEING HOME

Howard and Mrs. Hanan to be Questioned Today

Finger Prints Refute Story Told at Inquest

"Attack" on Partner of Dead Man Under Fire

Investigators from the District Attorney's office, aided by Pasadena police officers, last night launched a search for a man and woman seen running from the apartment-house where Victor A. Cooley, wealthy Pasadena garage owner lived, a short time before he was found fatally beaten with a hammer.

The officers learned from Sam Landi, 161 North Vernon avenue, a watchman, that the couple came running from the building and as they hurried down the street to a waiting automobile the man was seen wrapping up a large bundle. The motor of the sedan was running and the pair raced away.

### CAN'T DESCRIBE THEM

Landi was unable to describe the fleeing couple, but said that he remembered them as dressed in dark clothing, with the man slightly in the lead. He said that they ran past him a few minutes before 10 p.m. The investigators say that this checks exactly with the hour when they believe Cooley was attacked.

John L. Howard, business partner of the dead man; Clyde Cooley, his 19-year-old son, and Mrs. Evelyn Merritt Hanan, a close friend, will be questioned this morning by investigators in an effort to clear up certain unexplained circumstances surrounding the case. Howard and Cooley were taken to the District Attorney's office late yesterday, where both made a statement on their connection with the murdered man, and their movements on the night of the slaying. Howard stuck to his first story of the homicide, and stated that he was in the Cooley garage earlier in the evening and found his partner in a dying condition when he went to their room a few minutes after midnight last Tuesday.

### BOTH RELEASED

After their questioning Howard and Cooley were released from custody, and last night both were back on duty at the garage. The investigators again questioned Howard on his story of a mysterious attack made on him in the garage early yesterday, and he finally admitted "there was nothing to it." He also retold his story regarding the slaying given from the witness stand at the coroner's inquest and one to Pasadena police.

Only the prints of the fingers of the murdered man and Howard were found in the death apartment, according to a report of investigators last night. They admitted, however, that their findings do not agree with the testimony of Mrs. Cooley, who said that she heard a woman scream Tuesday night as though suddenly terrified. Mrs. Cooley told the coroner's jury that she was in a bed in a bungalow below Cooley's window, when she heard the scream shortly before 11 p.m., followed by a dull thud.

### TELLS OF ATTACK

Shortly before the jury convened yesterday Howard told of the mysterious attack on himself and played a cut in his head to prove his assertions. Chief of Police Kellogg of Pasadena became suspicious of the story and ordered Howard under technical arrest and in custody during the hearing.

Several witnesses were heard before the coroner's jury returned a verdict that "Victor A. Cooley came to his death by a blow on the head by persons unknown." Neither Mrs. Cooley or Mrs. Hanan was called at the inquest, which was conducted by Deputy Coroner Munford. Identification of the body was made by the son, and a sister of the dead man, Mrs. Cora D. Gilbert of 5022 Lemon Grove avenue, Los Angeles.

Other witnesses were Miss Floye Gordon, assistant manager of the apartment; Miss Mildred Robinson, occupant of the apartment below the room in which the attack on Cooley took place; Mrs. Gehrke, and Policemen Frank Sweetser and W. A. Hesson, who answered the call of Howard to rush to the apartment.

### GIRL TESTIFIES

Miss Robinson, said that she and three friends, who were dancing to radio music in her room directly below that occupied by Cooley and Howard, heard a thud at 11:45 p.m. "Thinking Cooley was rapping because the radio was keeping him awake, the party broke up, but shortly afterward the witness said she heard the sound of groaning in the room above, but thought Cooley might be suffering from nightmare."

The policemen who answered Howard's call: "For God's sake hurry. A man's been murdered!" reported they found Cooley, his head covered with blood, sitting on his bed, unable to speak.

Howard, in his testimony, stated that when he discovered Cooley had been attacked, the lights were out in the room and the doors of both the room and the apartment unlocked. After the lights were turned on, said Howard, Cooley managed to stagger into the bathroom of the apartment and back to his bed.

In answer to questions concerning his knowledge of the room-mate's habits, Howard replied that he knew little of Cooley's social affairs, but admitted that a man whom he did not name had made threats against his employer's life and he believed the threats involved Cooley's domestic difficulties.

### ADmits HE DRINKS

Howard admitted that he drank, but he asserted emphatically that Cooley did not drink. Dep. Dist. Atty. Broker, present at the inquest, confiscated twenty empty whiskey bottles which had been buried in a yard adjoining the apartment.

Chief of Detectives Betts of Pasadena said last night that Mrs. Pearl Cooley will be questioned further regarding the attack on her husband, following reports that she quarreled with him in the Cooley garage before the attack.

Howard formerly was a cook in time.

## Cooley's Affairs Told at Inquest

Relatives and Associates Testify  
Above—Mrs. Cora D. Gilbert, sister of the murdered Victor A. Cooley of Pasadena, and Clyde Cooley, his son at the inquest yesterday. Below—John L. Howard as he appeared before the coroner's jury.

restaurants until Cooley employed him.

### CEMENT-PLANT LINK SHATTERED

(Continued from First Page)  
The quarry to the water front. More than 300,000 gallons of water per day would be used to accommodate the 500-barrel per day cement production schedule proposed by the Bell interests.

### Padlock Suit Filed Against Restaurant

Suit was filed yesterday in the United States District Court by Asst. U. S. Atty. Balter petitioning the court to padlock the Moulin Rouge, a cafe at 1207 West Sixth street, on the place.

The petition sets out that James Harper is owner of the premises, and that Fred Harlow is manager of the cafe. Fred Harlow is mentioned as a waiter of the place. It is asserted the place is a nuisance under the Federal laws.

### Lawyers Argue on Judge's Will

Legal technicalities were argued in Superior Judge Desmond's court yesterday, when attorneys for Catherine Jean Summerfield, daughter of the late Superior Judge Summerfield, and her step-mother, Mrs. Ethel Summerfield, appeared in the suit and counter-suit to claim the jurist's \$20,000 estate. The court held that both the will, which leaves the estate to the daughter, and the codicil which leaves the estate to the mother may be filed, and the daughter may file a suit to set aside the codicil.

### ABANDONMENT PRICE SET

Hearings of protest against the ordinance of intention for the improvement of Moore Drive between Foster and Schumacher drives was postponed yesterday by the City Clerk to May 23, and the City Clerk was notified to instruct the protestants of the cost of abandoning the proceedings. These costs, the City Engineer has estimated, will amount to \$439.13.

### Leftovers for Lunch

If you have a youngster to feed at lunch time, it is wise to cater to that enough is left over from dinner the night before to provide for his lunch the next day. It is economical in two ways, money and time.

## Political Race Stirs Students

With all petitions for candidacy due this afternoon at 5 o'clock in the graduate manager's office, the Associated Students of the University of California at Los Angeles are turning to politics this week and next on the local campus. Seven students have announced their intentions of running for office.

Three men students are running for student body president: Jack Clark, now president of the junior class; Charles Orall and Robert Keith. Evelyn Edwards, Elizabeth King and Charlotte McGlynn took out petitions for candidacy to the vice-presidency of the body. Earl Swingle took out a petition for head yeller leader. Each petition must have 150 authentic signatures before its owner is accepted as a candidate.

### Impersonation Trial Ordered

After a hearing before United States Commissioner Head, William J. Crydell was held to answer to the Federal grand jury on a charge of impersonating a government officer. It is charged Crydell represented himself as a naval officer and that he had a contract to furnish supplies to Coast Guard cutters and was able to make large profits thereby.

The complaint accuses Crydell of having obtained sums from J. M. Carter and M. C. LaBee, Long Beach carpenters, by the asserted false representations. Bail was fixed at \$2000.

## Bent Going East for Meeting of Chamber Group

Representative of the interests of the Los Angeles Chamber of Commerce Arthur S. Bent, former president of that organization, will leave this morning on the Union Pacific Coast Limited for Washington where he will attend the annual meeting of the directors of the United States Chamber of Commerce.

Bent is a member of two special committees of the national body, one dealing with immigration and the other with water power resources, both of which are expected to make reports that will be submitted as the consensus of the business interests of the nation and which will be laid before Congress.

"While, of course, it would not be proper to anticipate the reports of these committees," said Mr. Bent yesterday, "in my capacity as counselor for the Los Angeles Chamber of Commerce I shall present the views that have been drawn as the result of two years of study."

TRAINING TO BE THEM  
Matters concerning active duty training and summer training camps will be the topic of discussion at the next regular monthly dinner meeting of the Los Angeles Chamber of Commerce, at the Alexandria at 6:30 p.m. tomorrow.

## Many Expected to Attend Rodeo

An attendance of 25,000 will witness the fourth annual Baker ranch rodeo at Saugus next Sunday, according to Roy Baker. More than 300 cowboys and cowgirls, among them winners of championship laurels at Pendleton, Cheyenne and other rodeos, will compete for a share of the \$8000 purse.

The Baker ranch stadium, thirty-two miles north of Los Angeles, is adjacent to 100 acres of free parking space which will accommodate 15,000 cars. The highways leading to the stadium, at the entrance to Mint Canyon, recently have been paved and widened, and traffic over the Newhall grade will be expedited by twenty-five motorcycle officers.

The "Baker Ranch Rodeo Special" will leave the Southern Pacific station Sunday noon, running directly to the stadium and returning immediately after the rodeo.

### TOO MANY KISSES

Wife Gets Divorce by Showing Notes From "Mama"

When Louis W. Stuart became tired of reporting to his wife, he told her so, she testified in a divorce hearing yesterday, when she was granted a decree by Superior Judge Schauer. And so, the plaintiff said, he spent much of his time, including nights, away from home. Mrs. Stuart's principal ground for divorce, however, was accomplished in several letters beginning, "My Darling Daddy," and signed, "Your true loving mama." The letters, according to their text, contained "acres of love and millions of kisses."

# FILM... a dangerous coating

that robs  
teeth of their  
whiteness

A way to remove it that  
restores brilliance

Film, it is agreed, also  
fosters serious tooth  
and gum disorders.  
You must remove it.

# Film

that is found by dental  
research to discolor  
teeth and foster serious  
tooth and gum disorders

THERE is a scientific way to keep teeth white and brilliant. A way science itself evolved to safeguard better against the commoner tooth and gum diseases, including pyorrhea.

The source of discolored teeth is a sticky, dingy film. Film, too, is the source of serious dental troubles. Science knows this—thus the approved method today of protecting teeth is by removing film. A special dentifrice called Pepsodent has been compounded with that as its sole purpose.

You must fight film  
Feel for film with your tongue — a

slippery, viscous coating. Food and smoking stain that film. Germs by the millions breed in it... germs of many different kinds.

Film hardens into tartar. And germs with tartar are the chief cause of pyorrhea. Film is also the basis of decay.

The special way to remove it

Ordinary brushing ways are not successful. You must employ the scientific method that first cures film. Light brushing then can easily re-

move it in safety-to enamel. Old ways may be discarded.

As children's teeth appear you marvel at their whiteness. Yours may once again regain that color. May take on a brilliance that is actually amazing. Lustreless, dull teeth are known to be unnatural.

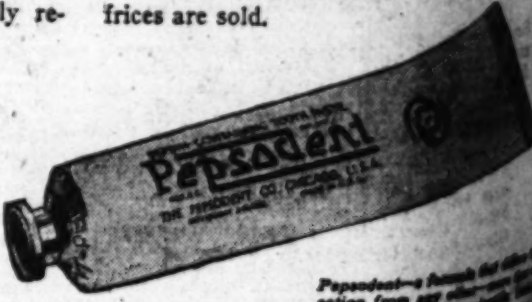

Test Pepsodent for one week  
Perhaps unattractive teeth have cost you too much in society and business. You must not delay another day in testing this method.

Get a full-size tube wherever dentifrices are sold.

Beware when lovely teeth are placed at stake. The finest dentifrice is never too costly when science recommends it.

# Pepsodent

The Special Film-Removing Dentifrice

Pepsodent is a brand name for a dentifrice. It is a scientific method of removing film from teeth.

**STECHER STARTS HARD TRAINING FOR LEWIS**  
Joe Stecher, the great Nebraska grappler, will start hard training today for his finish winner-take-all match with Lewis. Stecher will work out at the

morrow night at the Winter Garden, when the powerful Canadian from Vancouver opponent Hollywood Wanderer in the second game of the first annual international series.

Canadians were the first game Monday night, 2-1, they were forced to turn the tables period to turn the tide. The big feature of that battle was the return to form of the millionaire, who showed the skill of hockey that made them the class of the California circuit earlier in the season.

(Continued from First Page)

Health promptly delivered a single to center that scored Maloney and Carlyle. Reih went to third on the bases, but was trapped off a minute later on an attempted double steal, Schmidt to Pinell.

The Seals got back those three runs in the fifth when Jerry Donovan belted one of John's southpaw slants over the left-field fence with Suhr and Wingo on the bases. Suhr had singled out last time Johns walked and there were two out when Donovan made his circuit clout. ....

Gabby Hartnett, Cub catcher, is a good baseball player and a good baseball player can't be held down.

When Hartnett's arm failed to heat rapidly enough, the club physician ordered him not to throw a baseball for ten days. Hartnett, right-hander, beat the order, however. He practices daily but tosses them with his left.

Lewis the Kentucky "crasher," at the Olympic next Wednesday night.

Antone Stecher, brother-manager at the World track king, has mapped out a week of intensive training for the "scissors - king" to follow.

In order to be in perfect condition for the trimming he expects to give Lewis a week from tonight.

Stecher does not have beaten either Lewis or Cham-

Main Street Athletic Club every afternoon, beginning at 2 o'clock. Several hours of road work every day are also on Antone's schedule for the former champion.

The Nebraska hopes to bring his weight up to 220 pounds before ring time. He weighed 214 the night he put away Joe Malcewicz here last week and, according to experts, he appeared to be in better condition and looked like a better grappler than he did for any of his title matches here. Stecher looked good enough that night to have been either Lewis or Cham-

**SEVEN SWIMMERS BANQUET**  
Varsity and freshman swimmers of the University of California at Los Angeles will hold their annual banquet this evening at 7 o'clock at the Beta Theta Psi Fraternity house at 1007 North Edgewood avenue, according to an announcement.

**STARS BUNCH HITS**  
The Stars bunched eight of their ten hits in two innings to amass an early lead that the Seals could not overcome. Hollywood's big rounds were the second and fourth, seven of the eight runs being clustered in these frames.

Hollywood got its final run of the day in the home half of the fifth through Davis's wildness. Davis walked Rollings and hit Beasier to open the round and then Johns bunted the boys along. Dud Lee sent a sacrifice fly to Donovan that allowed Rollings to come in from third. Caveney threw out Maloney

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The left edge of the page is bound, showing the stitching and the inner cover material. The overall tone is warm and slightly yellowed.

THIS NOKOMIS NOT OF POEM  
Soldier's Indian Bride No Grandma

**THIS NOKOMIS NOT OF POEM**  
Soldier's Indian Bride No Grandma

**STAY GIVEN TO TORTURE CASE FELON**  
Ten-Day Period of Grace Allowed De Hoog Pending Filing of Appeal

**How Inexpensive! A Tub-Fast Dress**  
The cleverest summer frocks can be fashioned with little expense or trouble, if you use McCall Patterns and these, or similar materials!

**Real Crystal Chokers Irresistible at \$4.95**  
Irresistibly pretty—irresistibly good values—these genuine crystals—so beautifully cut and polished, and in strictly new styles, particularly effective with summer costumes. A safety catch strongly finishes them.

**Typical of the Style-Trend in Smart Hats**

Are the three sketched from this popular Section—indicative of scores of others—each the product of leading stylists on this and the other side of the sea, from which critical women are daily choosing:

**A Clever Set**  
Shows a hat of Chartreuse and black Bakou, simulating the bonnet type; faced in black Bakou and trimmed with closely-clustered quills on either side. The scarf, melon-shaped—of black and Chartreuse flat crepe, smartly completes the ensemble. **\$39.50**

**An Eyebrow Helmet**  
Of Cameo Nile Bakou, with fisherman back, sets charmingly off the forehead; crepe bound edges with a wreath of lustre berries across the back, combine to produce a creation which will prove vastly becoming to almost any woman who wants a hat of this very popular summer shade. **\$29.50**

**A Poke of Fine Ballibunt!**  
In Paris Plage color, shows an overlapping brim of Tuscan lace in the same lovely shade, and is finished with clusters of three gardenias and lacquered green leaves—an original and very smart type. **\$32.50**

**OUR STUCCO HOUSE NEED PAINT?... THEN REMEMBER—**

**A PAINT BRUSH has a handle too...**

It is important that you consider the handle end of a paint brush, as well as its bristle end, when you have painting done on stucco or any other surface. To insure the right kind of job, you need both a master painter and good paint such as pure lead paint.

The master painter and pure lead paint are a time-tried partnership. For a hundred years and more, master painters have built reputations for fine work with pure lead paint... and enabled property-owners to get the utmost for their paint money.

Pure lead paint, made with Dutch Boy white-lead, covers stucco with a beautiful, durable film that does not crack or scale... that prevents cracking of the stucco surface by keeping out moisture. With this paint, the master painter can give you the finish you prefer—gloss, eggshell or flat—and also the exact color you desire. It is mixed and tinted by him specially for each job.

Write us for detailed information about using pure lead paint on stucco. Also request a new booklet on painting, "The House We Live In," which aids in the selection of interior and exterior color schemes.

**NATIONAL LEAD COMPANY**

## "The only coffee in keeping with our standards"- Western Air Express

"M-J-B Coffee was selected as  
the highest quality obtainable."

*James G. Hays*  
V. P., Western Air Express Inc.

Many people find that with M-J-B, the full-flavored blend, they use slightly less coffee. Whether you make it strong, mild or medium—M-J-B has the matchless coffee flavor that only this rich blend can give.

M-J-B is vacuum-sealed in the new improved friction top key-can by M-J-B's own exclusive process. Ask for M-J-B Coffee at your grocery. Look for the letters on each can.

## SOCIETY

BY JUANA NEAL LEVY

Of much interest to friends in the Southland comes the news from Mrs. Egbert J. Benedict of Covina, who, with her son, George Gillson, is traveling abroad. They have been for the past month in Rome and have enjoyed many unusual pleasures there as they attended the symphony orchestra concert, where 150 artist musicians played, led by Molinelli, the concert taking place in an old temple of Augustus, which has stood for more than 2000 years. The temple stands complete with only the interior having been recently redecorated.

While in Rome they attended the opera and had the privilege of hearing Elisabeth Rethberg in "The Sunken Bell" in the old opera house, which has been entirely done over. Also Mrs. Benedict's niece, Jeanette, has been enjoying tennis games with Princess Fignatelli, formerly Conchita Sepulveda-Chapman of Los Angeles, who since her marriage last year has been making her home in the Italian capital.

After the completion of their stay in Rome Mrs. Benedict, her son and

niece will leave for a sojourn in Milan and then on to Paris, from where they will start home in July.

**Retrospective Announcement**  
Formal announcement is made by Mr. and Mrs. Francis Noel Sanborn of Beverly Hills, formerly of Cleveland, O., of the engagement of their attractive daughter, Miss Lois Hart, to J. Stanley Gardner, son of Mr. and Mrs. Richard William Gardner of Beverly Hills, formerly of New York City. The wedding will be an event of June.

Miss Hart, who is one of the most popular members of the younger set in Beverly Hills, finished her schooling at Les Alouettes in Lausanne, Switzerland, and with her parents has traveled abroad extensively.

**Lovely Affair**  
One of the lovely affairs of recent date was the beautifully appointed bridge-luncheon with which Mrs. R. C. Hackett of South Molino avenue, Pasadena, entertained at the Chevy Chase Golf Club Friday afternoon, honoring Miss Ruth Quigley of Yakima, Wash., who is to become the bride of Chalmers Walter of Seattle, Saturday, the ceremony to take place in All Saints' Church in the Crown City.

The luncheon tables bore baskets

of spring flowers while cornucopias of sweet peas and jonquils formed the place favors.

Those included were Mesdames Francis Francis, Leonard Knapp, Lee Davis, Harrison Baker, Walter Worley, Herbert Hahn, Clarence Wortel, Clement Storey, George Haseltine and H. P. Barnewall of Pasadena, Mrs. Lloyd Judge of Hollywood, Mrs. Winifred Bowring of Charter Oak, Mrs. Axile Maule of San Marino, Mrs. Charles Robbins of Hollywood, Mrs. W. S. Douglas of Yakima and Miss Evelyn Platt of Los Angeles.

**Felicitations**  
Congratulations are being received by Mr. and Mrs. Richard W. Fewel (Helen Bullock) over the arrival Tuesday the 18th inst. at St. Vincent's Hospital of a tiny daughter, who is to be named Mary Margaret Fewel. Mrs. Fewel is the daughter of Mr. and Mrs. John Gillepie Bullock of South Plymouth Boulevard, her marriage to Mr. Fewel being an event of March 7, 1933.

**Marriage Announced**  
Announcement is made of the marriage of Mattie M. Lee, daughter of Mrs. M. L. Leicher of Altamira, Cal., to E. C. Darnell of Pasadena, in the Little Church of the Flowers Sunday. After their wedding trip Mr. and Mrs. Darnell will make their home in Pasadena.

**Farewell Party**  
Mrs. Roy C. Bray and her sister, Mrs. Edward M. Paap, assisted by their mother, Mrs. Pranchett H. Boyd, entertained yesterday with a farewell party in honor of Mr. and Mrs. John Gillepie Bullock of Hollywood for a smartly appointed luncheon and bridge party Thursday afternoon, the affair complimenting Mrs. A. B. Brant and Mrs. J. C. Moore of St. Paul, Minn., who have been visiting in the Southland.

A profusion of spring flowers adorned the long tables, at which were seated the hostess, guest of honor and Mrs. W. E. Dockstader, Mrs. Carl Blasco, Mrs. B. D. Francis, Mrs. Helen Brown, Mrs. John McQuadden, Mrs. E. Fred Kraemer, Mrs. James H. Van Arsdale, Mrs. D. Bene Gatzung, Mrs. E. E. Donald, Mrs. L. Schmidt, Mrs. A. H. Zeller, Mrs. C. J. Backus of Long Beach, Mrs. Una Backus Reynolds of San Pedro and Mrs. E. M. Zumsteg of Spokane, Wash.

**Wedding of Interest**  
A wedding of interest to Southern California occurred Wednesday evening, the 18th inst., when Miss Charlotte Haberfeld, only daughter of Mr. and Mrs. George Haberfeld of Oleander avenue, Bakersfield, became the bride of James Ogden Reavis, son of the late Hon. and Mrs. James Jones Reavis of San Francisco the ceremony being read at 8:30 o'clock at Samarkand in Santa Barbara before a group of relatives and intimate friends of both families.

The bride was attractively costumed in a Nemes gown of ivory satin with basque bodice and full skirt, a wide bertha of Alençon lace outlined in seed pearls forming tiny cap sleeves and falling gracefully to the waistline. Squares of the beaded Alençon lace were inset in the skirt. She carried a shower bouquet of orchids, lilies of the valley and gardenias. Her only attendant, Miss Jessie Dugan of Beverly Hills, wore a frock of green tulle with light-fitting bodice and full skirt and carried Russell roses and lavender sweet peas. Mrs. Haberfeld, mother of the bride, wore an attractive blue lace gown and a corsage of orchids.

Joseph Hoefelder of Bakersfield served Mr. Reavis as best man. The bride was graduated from Stanford University where she was a member of Gamma Phi Beta Society.

YOUNG ORATORS  
READY FOR FRAYSeven from Bay District to  
Compete Friday NightGirl Among Those Trying  
in Group E SemifinalsSplendid Speakers Listed on  
Contest Program

The Times Group E semifinals in the Sixth National and Fourth International Forensic Contests, on the Constitution, to be held at Roosevelt High School Friday evening, will bring together seven young orators of the bay district. An interesting variety will be found in the six young men and in Miss Elena Andersen, who will be the honor of the fairer sex in citizenship.

Ray Vogel of Belmont High School will be the first speaker on the program. He is a senior who transferred from Los Angeles High School this year. During his short enrollment in Belmont he already has taken an active part in school affairs, particularly in the glee club and music and will be a soloist in the forthcoming opera to be presented by the school. In athletics he is a broad jumper. A maturity marks him as a high-school pupil.

Miss Andersen will prove a close contender for first honors. She comes from Santa Monica High School, which has been in the contest since the beginning six years ago and is known for the high standard of its forensic representation. Her contest deals on the achievement of the makers of the Constitution in founding a government that has permanency, stability and effectiveness and makes a strong appeal to the present generation to keep inviolate its precepts and hand them down to future generations.

In Rice Ober of Woodrow Wilson High School is found a forceful youth with sincere interest in public welfare. As governor of affairs he is recognized as president of the student body, and is a member of four school clubs, Forum, Junior Exchange, which is the service club of the school, Drama and Letterman. He is a native of Seattle and came here two years ago and intends to enter the foreign trade service of the United States on his graduation from high school.

NOTE FULFILLED  
John Young of Torrance High School declared when in the seventh grade of grammar school that he some day would win the oratorical contest on the Constitution in high school. He has been a consistent runner-up in the endeavor and this year fulfilled his promise.

Because of many races represented, Roosevelt High School is one of the most interesting institutions in the local field. No more ardent supporter of the study of the Constitution may be found than Ella Ludwig, teacher in charge. She compels the writing of orations on the Constitution and has personally read more than 700. Nathan Slutsky, who will represent Roosevelt, organized a debate team as the outgrowth of the constitutional contest this year and won the school contest by the vote of four of the five judges. He is a serious-minded honor student and will continue his forensic efforts no matter where he places in the semifinals, he says.

OTHER CONTENDERS  
Jack Schwartz of San Pedro won the finals of District 33 from a strong field and is considered almost certain to place in the semifinals. His manner is convincing, backed by a pleasing personality. William McCoy will tackle the subject, "In the Constitution Serving Modern America" for Warren O. Harding High School. He was winner of the trophies two years ago and has a strong stage presence, born of his work in athletics. He won the minor city league pole vault and took second in Southern California in the event, places in the shot put and high jumps and is a member of the basketball team.

Judges for the contest will be: Judge Gavin W. Crane, associate justice, District Court of Appeal; Martin Gang, attorney of Los Angeles; George L. Brown, president of the Seaboard National Bank; Harold L. Arnold, automobile distributor, and William H. Fairbanks of the Southern California Telephone Company.

Two Suspects  
Seized in Yuma

With the arrest of Jack G. Wiley, 32 years of age, and Worth W. Stalnaker, 33, in Yuma yesterday, Capt. Norris G. Stensland, head of Sheriff Trager's burglary investigation detail, announced that he expects to solve numerous burglaries and robberies in Los Angeles county. The men were apprehended when they attempted to sell diamonds in Yuma which Los Angeles police contend were stolen by burglars who blew the safe of a large Los Angeles candy store recently.

William P. Orsag, asserted probable violator, and Ben F. Brown, accused of being an escaped prisoner, also are sought by officers for questioning, Capt. Stensland said.

EXCHANGE CLUB GROUP  
WILL FLY TO SAN DIEGO

A fleet of six or more airplanes will take off from Clover Field this morning with twenty-five members of the Santa Monica Exchange Club for San Diego, where they will attend the luncheon of the San Diego Exchange Club and return in the afternoon in the planes. The party will be headed by George S. Greene, assistant cashier, Security-First National Bank, who is the national president of the Exchange Club of the United States. The visiting service club members will be met at Lindbergh Field by members of the San Diego club with auto and taken in a body to the luncheon.

## Contenders for Forensic Honors

They Will Vie in Contest This Week

POLITICS  
THE WATCHMAN

Trend of Political Thought and Action

Again demonstrating his alertness to the needs of the property owners of the city, John R. Quinn in addressing the Eagle Rock Chamber of Commerce announced his intention to take immediate steps, if elected Mayor, to correct the present evils of improvement assessments.

Introduced by Dr. Arthur Coons, executive secretary of Occidental College, Mr. Quinn plunged immediately into the subject which he realizes vitally concerns every property owner in the city. In every section, he said, the cry is against unfair and overlapping assessments until remedy must be undertaken at once.

"The crime situation in Los Angeles today is appalling, but no more so than is the assessment evil," Quinn said. "You property owners out in this district know what it is to have to pay overlapping and unfair assessments. I do not have to tell you about them. 'Go to almost any meeting of the City Council and you will find the room filled with protesting property owners. Now, like every other progressive citizen, I believe in the improvement, but I do not believe in making the property owners pay a big assessment just for the privilege of seeing automobiles go whizzing by their front doors. 'I have had much personal experience as executive official of a bank and as chairman of the Veterans' Welfare Board of California in the purchase of property and this has been one of our greatest problems—buying property that will not be eaten up by unfair and overlapping assessments. Therefore, I pledge that I will give this crying evil my first attention when I take office."

At a meeting representing voters from every section of the northern portion of the Fifteenth District at the Athens Chamber of Commerce the candidacy of A. E. Henning for Councilman was endorsed. The resolution of endorsement stated in part: "A. E. Henning has defined his attitude regarding major projects now before the City Council, favoring all such as are to the best interest of the taxpayers and voters of this district. This volunteer body of voters has confidence in his integrity and ability and knows his work during the past few years has advanced the interests of the property owners of this district."

Candidates for the City Council and Mayor will be heard at a meeting of the Sierra Vista Improvement Association to be held next Monday evening at the Sierra Vista schoolhouse.

Members of the Girls' Camera Club have enlisted in the campaign of Guy P. Bush, running for Office No. 7 of the Municipal Court.

Dr. John T. Connelly, dentist candidate for Council in the Eleventh District, is advocating more actionless talk in his platform.

Another Native Son making a bid for a seat in the Council is Phil Dodson, Jr., from San Pedro. He is a member of one of the oldest families in the State, a past commander in the American Legion and a graduate of the University of California.

A meeting of the Federated State Societies will hear Donald M. Keith, deputy City Attorney and candidate for City Attorney, tonight at the Los Angeles Chamber of Commerce. It is announced by Keith's headquarters.

The Solano-Avenue District Improvement Association, after investigating John C. Porter's platform, announced its support of him.

The Municipal League yesterday announced its preferences for candidates for office as follows:

RADIO CHIEFTAIN  
WILL VISIT CITYLafount Plans to Make Tour  
of Fifth ZoneCommissioner Due to Arrive  
About July 20Chairmanship Expected to  
Be Given Him

BY DR. RALPH L. POWER  
According to word from Washington, Federal Radio Commissioner Harold A. Lafount will make a tour of the fifth zone in July, next. He plans to inspect various broadcast stations and confer with radio men in the larger cities.

The tentative date for the Los Angeles stop is July 20. When Mr. Lafount visited here a year and a half ago he spoke before the Radio Trades Association and the Chamber of Commerce. It is anticipated that he may address one or two meetings on his next trip to Southern California.

Ira E. Robinson, present chairman of the commission, has indicated that he may resign June 1, next. If this is so, it is probable that Commissioner Lafount may be elevated to the position.

A year ago, being new to the work, he refused the chairmanship, but is now said to be receptive to the suggestion that he head the group. Mr. Lafount is said to have made a rather excellent record since he became a radio man. He is a graduate of the University of Southern California, although there has been a good deal of outspoken criticism of his vote in allowing large concessions to the Universal Wireless Company, a new communications organization, to the exclusion of other interests.

It is believed that Lafount's only possible rival for the chairmanship would be Maj.-Gen. Charles Saltsman, new member of the commission.

Victim of Fight  
in Hospital and  
Partner Seized

R. B. Roe, 47 years of age, of 1423 West Thirty-seventh street, is in the Centinela Hospital, Inglewood, suffering from a broken pelvis and a possible fracture of the vertebrae following a fight with R. B. Cui, 47, his business partner, in a car at 2947 East One Hundred and Fourteenth street, Monday night, deputy sheriff reported yesterday.

Cui was taken into custody charged with suspicion of assault to commit murder. Officers assert that Cui struck Roe several times with a heavy glass water bottle. Cui, however, said he was forced to use this weapon to defend himself against Roe's attack.

PUPILS CONSIDERED  
FOR SCHOLARSHIPS

Thirteen girls and fourteen boys are among the twenty-seven high school pupils being considered as applicants for two four-year scholarships offered by the department of Journalism of the University of Southern California.

One boy and one girl will be chosen as candidates. Choice will be based on scholastic standing during four years at high school; journalistic experience on high-school publications and on intention to pursue a journalistic career when graduated from college. Judges of the contest include Frank Hadlock, secretary of the University of Southern California Alumni Association; Prof. Roy L. French, head of the journalism department at Southern California, and one senior student at Southern California majoring in Journalism.

GOULD WILL LECTURE  
"Do You Know Your School?" is the title for a lecture to be given at the Central Library Friday at 8 p.m. by Arthur Gould, assistant superintendent of Los Angeles city schools. This is his second lecture in the series on "Skillful Parents" presented by the teachers' and children's department of the library.

## ANGLING SEASON OPEN SOON

Sportsmen Assured Abundant Fishing by Game  
Warden After Survey of Wilds

May 1 will be a sad day for the fresh-water fish of Los Angeles county. On that day the fishing season opens, and County Game Warden Turner, after a survey and scouting expedition on the principal mountain streams near Los Angeles, has announced that local fishermen will experience the best sport that has been enjoyed hereabouts during the past few years.

Late rains in high altitudes, plenty of snow on the mountains and the conservation program inaugurated three years ago by the county have contributed to the favorable conditions, according to Mr. Turner. "Best fishing will be found on the Malibu, Piru Creek at Puddingstone Dam, in the west fork of the San Gabriel River, Big Tujunga Creek and Big Rock Creek," said the game warden. "While the San Dimas Dam was being built last fall, 1500 two-pound trout were rescued from the low water back of the dam and transplanted to Puddingstone."

Many trout were transplanted to Big Rock Creek also, during low water last season. The French Flats district on Piru Creek also is expected to be productive of many fish. Well planned and accessible, Big Tujunga will be as usual a favorite fishing spot.

The French Flats district on Piru Creek also is expected to be productive of many fish. Well planned and accessible, Big Tujunga will be as usual a favorite fishing spot.

CHAMBER TO SPONSOR  
CAMPAIGN ON TERMITE

Dr. C. A. Koford of the University of California, is starting a study of the wood-eating termite that has done so much to undermine the foundations of buildings of frame construction and cause general decay in the lumber used in California. The construction industries committee of the Chamber of Commerce is starting a drive to raise funds for the research program. This action was taken following a luncheon given to prominent men in the railroad, street railway, municipal building, oil, lumber, and other public utilities industries, by Shannon Crandall, chamber president.

Death Ends Labors of Pioneer of  
Rubber Industry

Funeral services for Frederick Barber will be conducted today at 2 p.m. at Pierce Brothers' chapel. Interment will follow in Inglewood Park Cemetery. Mr. Barber was identified with many of the largest rubber companies, and at the time of his death was engaged in working out a chemical vulcanizing compound. He died last Monday at his home, 1277 Queen Ann Place. He was born in 1870 in Akron, O. He was a member of the University Club. He leaves his widow, Mrs. Caroline Barber, and a daughter Mildred.

## "MISS ANAHEIM" DESIGNATED VALENCIA SHOW WINS SUPPORT

### Prowess in Novel Swim Brings Honor

Queer Pose for City Favorite  
But this is Miss Jessie Darnley, who won title of "Miss Anaheim" by swimming in all of those oranges. She will represent her city at Valencia show next month.

ANAHEIM, April 23.—Miss Jessie Darnley, pretty 18-year-old high-school girl of this city, won her right to the title of "Miss Anaheim" in a novel contest at the City Park today. "Miss Anaheim" will represent this city at the Ninth Annual California Valencia Orange Show which will be staged here for eleven days, commencing May 23, next.

With hundreds of students and the school band participating in the day's festivities, Miss Darnley won the title by swimming in a tank of oranges. She swam 200 feet through water covered solidly with three tons of Valencia oranges.

Miss Darnley is well known in Orange county for her athletic prowess. She is a member of the Anaheim Athletic Club, and is an expert swimmer and diver.

The students all wore their regulation rosters' uniforms, the girls wearing white ensembles and the boys wearing orange-colored blazers. High school was dismissed this afternoon in order to allow the students to participate in the orange show festivities.

## Judge Thompson Heads Chamber

PASADENA, April 23.—Judge Raymond O. Thompson, attorney and former president of the local Board of Education, today was elected president of the Pasadena Chamber of Commerce and Civic Association to succeed L. A. Keller, who retired from the presidency at the time of the directors' election on the 12th inst.

D. E. McDonald, local automobile agent, was chosen first vice-president, and Theodore Smith, vice-president of the First National Bank of Pasadena, was named treasurer. Howard Christensen, oil-station operator, was elected second vice-president.

## MRS. TEBBETTS' RITES TO BE IN WHITTIER

WHITTIER, April 23.—Funeral services for the late Mrs. Imelda Tebbetts, widow of a prominent pioneer, will be held at the First Friends Church, Whittier, Thursday afternoon at 2 o'clock.

Mrs. Tebbetts was the daughter of Mr. and Mrs. John Painter, for whom the Painter Hotel, contemporary with the Hotel Del Coronado and other early Southern California hostilities, was named and a street at Pasadena also bears Mr. Painter's name, as does Painter avenue, in Whittier.

## DELEGATES SELECTED HUNTINGTON PARK, APRIL 23

HUNTINGTON PARK, April 23.—William Holmblad and August Gagle have been appointed by the Exchange Club as delegates to the State Exchange Club annual sessions to be held in Pasadena, May 23, 24 and 25.

FACE REIGNS IN POMONA

Cases Shakes Hands With Target of Radio Criticism After He Wins Reappointment

POMONA, April 23.—Before a crowd of 150 citizens who packed into the auditorium, today's meeting of the City Council moved swiftly and decisively to reappoint a lively session. Fred Cases, who holds three positions, namely, City Engineer, City superintendent and manager of the municipal water department, was reappointed to his office with a resolution of commendation to J. B. English, who resigned as Chief of Police at last Tuesday's Council meeting, effective May 1.

A request from Chief English for an audit of his books was granted, Harry H. Denny being appointed to check the books.

## JUDGE ACCUSATION DENIED

### San Bernardino County Dry Leader Said to Have Disclaimed Remark Before Grand Jury

SAN BERNARDINO, April 23.—Mrs. Elsie Giles of Redlands, president of the San Bernardino county W.C.T.U., today was reported to have denied before the grand jury that she charged "a certain judge" in San Bernardino county is taking orders from bootleggers. The statement was said to have been made by Mrs. Giles in an address before a convention of dry workers at which she added that attorneys are dictating to the judge the sentences to be pronounced in bootleg cases.

Two newspaper reporters, Winona B. Meyer, who reported Mrs. Giles' statement, and Larry Jacobs, who interviewed her after the convention, were called. They testified that Mrs. Giles did make the blanket charge and that she admitted it in substance after the meeting. The grand jury adjourned at noon without filing a report as to its investigation.

It was reported that Mrs. Giles said before the grand jury that she charged that attorneys were attempting to influence the courts. Mrs. Giles refused to talk after the inquiry.

The newspaper reporters, however, said that they were told Mrs. Giles had denied making the charges.

The case has attracted wide attention, judges and magistrates demanding that Mrs. Giles be compelled to name the accused judge or face a retrial of her statement. Mrs. J. A. Larson, wife of the county dry squad captain, who attended the convention, said today that newspaper reporters had correctly quoted Mrs. Giles. Mrs. Larson was a witness before the grand jurors today.

## EX-OFFICER SENTENCED FOR YEAR

### Severe Rebuke and Jail Term Meted Out on Two Drunk Charges

RIVERSIDE, April 23.—With a sharp rebuke from Superior Judge Motion ringing in his ears, E. A. Boche, former deputy Police Chief under Chief of Police John Franklin, today walked from the courtroom, a dejected figure, to begin serving a year's sentence imposed after his pleas of guilty to two charges of driving while drunk.

Boche, arrested at Banning two weeks ago, and here two days later, was sentenced after the former of had been brought into court on a bench warrant for failure to appear last Monday when his case was called.

"What can we expect the public to do when officers of your high position slip and commit the serious crime of driving while drunk?" inquired Judge Motion as Boche stood before him, his eyes turned on the floor. "You are not criminal, but you have slipped and are deserving of punishment."

Boche was regarded as one of the outstanding dry law-enforcement officers while with the police department. His former chief, John Franklin, was removed from the post when he was charged with conviction on liquor-law charges in Colton, where he was arrested.

## Driver Sent to Jail for Month

SAN DIEGO, April 23.—Nick Buono, brother of Frank Buono, Councilman candidate at the last municipal election, must serve a thirty-day jail term following his conviction on charges of reckless driving, in Police Court today by Judge James P. Kelly.

Buono's car, a 1928 Buick, was involved in a collision with a car driven by Robert Purinton, Santa Ana banker, R. B. Williams, Santa Ana publisher, Mayor Ert Annin of Fullerton, Mayor Bert Miller of Orange and F. W. Shabugh, Orange county purchasing agent, Santa Ana.

## Girl Arrested as Suspect in Store Burglary

SAN BERNARDINO, April 23.—Pretty Dorothy Herman, 21 years of age, was arrested early this morning while hiding in a showcase in Market's Department Store, after a night watchman reported seeing her lower a bundle of merchandise out of a side window during the night. She is held on a charge of burglary.

She walked away the long hours of the night by writing verse on paper cups. She admitted to police that she concealed herself in the store at the closing hour last night but denied the burglary charge. William Emma, the guard who reported the case, said he had seen a girl lowering merchandise out of a window, arrested her when the store was opened.

The girl recently came here from San Francisco, securing part-time employment in the department store, she said.

## Girl's Spanking Starts Inquiry

LONG BEACH, April 23.—The high-school fraternity issue was seized again today as school authorities launched an investigation into an initiation of a Polytechnic High School sorority at which Miss Lindsay, 21, was allegedly spanked. Miss Lindsay's injuries will necessitate her absence from school for several days, Mrs. Agnes Price, school nurse, reported to authorities.

## SECTION OF FOREST CLOSED TO PUBLIC

SANTA BARBARA, April 23.—As a fire-prevention measure, eighteen square miles of the Santa Barbara National Forest, embracing a part of the Montecito county water district's watershed on the Upper Santa Ynez River, was ordered closed to the public yesterday by the forestry district office in San Francisco. The closure was made because of a dangerous fire hazard, according to Assistant Forest Supervisor Robinson, but trails lead around the district, permitting hunters and fishermen to access into the forest.

## POSTAL SURVEY RAISES ROW

### Move Branded as Scheme to Submerge Identities of Surrounding Cities by Metropolis

GLENDALE, April 23.—The proposal of the Los Angeles Chamber of Commerce directed to the Postmaster-General, advocating a survey of the postoffices in the city of Los Angeles and in seventeen cities and nine unincorporated districts in the metropolitan area, has aroused a storm of protest here, where the belief is entertained that the survey is merely a preliminary to an effort to have all such postoffices made subordinate, through consolidation, to the Los Angeles postoffice.

Letters and telegrams have been sent to the smaller cities, addressed to the California delegation in Congress urging that postal authorities reject any proposal designed to consolidate these postoffices with the Los Angeles department, on the ground that such move would submerge the civic identity of such communities in that of Los Angeles and deprive them of their civic pride and individuality.

Charges are made that the object of the Los Angeles chamber is to avail itself of the massed statistics regarding population resources and trade to advertise the city, regardless of the effect that such a

## WOMAN TRICK RIDER AT SAUGUS SUNDAY

SAUGUS, April 23.—When a company of cowboys leaves here tomorrow to round up a herd of untamed horses now running in a remote section of the big Baker ranch, final arrangements will have been made for the staging of the fourth annual Baker ranch rodeo, Sunday.

The ranch stadium, thirty-two miles north of Los Angeles, is the scene of bustling activity as the time for the revival of the days of the old West nears. With the exception of one string of relay ponies and a few cow ponies to be entered in the stock horse show, all of the broncos, stock horses and all of the broncos, arrived and are stabled in the various ranch buildings.

Traffic bound for the ranch Sunday will be expedited by a corps of twenty-five motorcycle officers under the direction of Capt. Fred Cannon, who today announced that plans were completed for handling the traffic flow with dispatch. The roads leading to the Baker ranch are well paved and recently were widened to accommodate four lanes of traffic.

## Baseball Has Its Perils, Too

GLENDORA, April 23.—One woman fainted and excitement prevailed among other spectators at the Twilight League baseball game between the Christian Church and Bettin Sororities last night, when Wesley Polley, on the church team, playing left field, ran into a team-mate and was knocked unconscious.

The young player was immediately removed to his home where he was treated for a severely sprained neck. Polley will be confined to his home for several days and as yet doesn't know just how the accident happened.

Several weeks ago local fans raised funds to light the baseball park for the twilight games which are played on Mondays, Wednesdays and Fridays. Six teams make up the league. More than 1000 spectators attended the game last night, according to reports from the gate.

## GLENDALE WINS PLEA FOR BETTER SERVICE

GLENDALE, April 23.—The campaign that has been under way for several months to have the Southern Pacific Railroad halt its Daylight Limited here on both northbound and southbound schedules, reached a successful conclusion today with the announcement by T. H. Williams, general superintendent of the railroad, that this train would stop at Glendale, beginning tomorrow. This arrangement will permit residents of Glendale, Burbank, Pasadena, Beverly Hills and other localities in the metropolitan area to catch the train here or to leave it on their return trip to Los Angeles, and thus avoid the longer trip to and from the station in Los Angeles.

## NEGRO HELD AFTER STABBING BATTLE

SANTA BARBARA, April 23.—As a result of an argument over who was to give orders, Milton McAlece, 125 Kimberly avenue, is in the Cottage Hospital probably fatally injured with a knife wound just above his heart, and Walter Goode, 19-year-old negro, his asserted assailant, is in the City Jail facing charges of assault with intent to kill. Goode was arrested shortly after the fight in the house where he was rooming. He was found hiding under the bed in his room by Lieut. R. G. Bassett. It was reported that Stanley Henkelson, who saw the fight, identified the negro.

## REDLANDS BANKER RESIGNS POSITION

REDLANDS, April 23.—Jay C. Sexton, manager of the Orange and Citrus branch of the Bank of America, has resigned his position as manager of the bank, which was succeeded by Harold S. Macomber, assistant manager, according to an announcement made today by bank officials. Sexton came to Redlands from La Habra in 1923. Macomber entered the employment of the bank in April, 1926, as teller. In 1927 he was appointed assistant manager. Sexton has made no definite plans for the future. He and his family plan to go back to Michigan for a visit this summer.

## GLASS FACTORY FOR SANTA ANA

Pittsburgh Company Buys Eighty-Acre Tract  
Plant Estimated to Require \$4,000,000 Outlay  
Operation of Industry to Demand 600 Men

SANTA ANA, April 23.—The Pacific Coast plant of the Pittsburgh Plate Glass Company, estimated to cost \$4,000,000 and bringing an annual payroll of \$1,250,000, will be located here. Deeds for an eighty-acre tract at Fairview and Bristol streets at a factory site have been signed. It was announced today by George A. Raymer, secretary of the Chamber of Commerce.

Decision to construct the plant here marks the culmination of more than two years' work on the part of Chamber of Commerce workers. The plant will require a year to build and 600 men will be employed in its construction.

Operation of the completed plant will require the services of 200 technical men, and 400 laborers. The factory will use approximately 4,000,000 gallons of water daily. Half this amount will be returned to its underground reservoir by sinking basins. The other half, sufficient to serve approximately 600 acres, will be sold for irrigation purposes. Approximately 600,000 cubic feet of gas will be required annually. Yearly fuel oil requirements will total approximately 185,000 barrels.

Extension of railroad switching limits to include the Western Santa Ana area will be a feature.

Actual and prospective decrease in raw materials costs in Southern California, together with other factors, will have direct immediate bearing on other industrial developments here, it was said. Among these are opening in the fall of the Standard American Glass Company's plant, in the Dyer district, which plans to carry on the production of glass for the manufacture of window glass, to be installed at a cost of approximately \$75,000.

## Call Named to Board for Study of Fruit Pest

VENTURA, April 23.—Albert Call, county horticultural commissioner, is to be one of the state California horticulturists sent to Florida to study the problem of the fruit fly. It has been decided by the County Supervisors. The request that Call be sent on the mission, which will take a month or six weeks, was made by C. C. Teague, president of the California Citrus Growers' Association, after he had learned from Dr. William Newell, plant commissioner of Florida, that his State would be glad to entertain the delegation and supply it with all the information possible that will safeguard California from the pest.

## Alhambra Boys Rule for Day

ALHAMBRA, April 23.—Occupying official positions in the City Hall and in other branches of the city government, and taking over executive positions in the High School, boys of that institution today ran the city in annual observance of "Boys' Day." The City Commission session today was presided over by the presence in the President's chair of Jack Rugh, commissioner of athletics at the high school; John Seixas, commissioner-general, acted as City Manager; Oliver Brown was City Clerk; Richard Ashby, Police Chief, and Phil Lyon, Fire Chief.

## DR. DEXTER PLEADS FOR Y.M.C.A. WORK

GLENDALE, April 23.—Dr. Walter P. Dexter, president of Whittier College, last night delivered the principal address at the opening of the Y.M.C.A. campaign to raise \$22,500 for its maintenance and building fund, stressing the point that the city that does not consider its boys its greatest asset sooner or later awakes to find them its greatest liability. The campaign organization consists of five crews, under the direction of J. D. Funk, general chairman, and the drive will continue until next Monday night, when final reports of the workers will be presented. Advance gifts from local firms have passed the \$5000 mark.

## THREE BLOCK THIRTY-EIGHT

### Effort to Avoid Condemnation in Foothill Road Improvement at Monrovia Fails

MONROVIA, April 23.—Plans of the West White Oak Improvement Association to eliminate condemnation proceedings in the widening of White Oak from Mayflower avenue to the westerly city limits, by gaining the consent of frontage property owners to deed rights-of-way to the city, were shattered at a meeting of the association last night, when three out of forty-one landowners along the boulevard refused to comply with the request of the majority.

The dissenting property owners' rights-of-way is obtained, was responded only by disgruntled assertions of the frontage holders.

It was hoped several weeks ago that the association could speed up the project by obtaining the necessary land for the widening of the boulevard, without condemnation proceedings, when there were several weeks ago by the City Council. Out of approximately 6000 feet of frontage in the improvement district, 3000 feet was represented at the meeting last night. J. W. Thompson, West White Oak realty dealer, is chairman of the association.

## FACE REIGNS IN POMONA

### Cases Shakes Hands With Target of Radio Criticism After He Wins Reappointment

POMONA, April 23.—Before a crowd of 150 citizens who packed into the auditorium, today's meeting of the City Council moved swiftly and decisively to reappoint a lively session. Fred Cases, who holds three positions, namely, City Engineer, City superintendent and manager of the municipal water department, was reappointed to his office with a resolution of commendation to J. B. English, who resigned as Chief of Police at last Tuesday's Council meeting, effective May 1.

A request from Chief English for an audit of his books was granted, Harry H. Denny being appointed to check the books.

**DIVING DEPTHS**  
 For years the diving fraternity  
 has been trying to perfect methods  
 to enable man to go down to  
 greater depths and remain un-  
 dersea longer than is now pos-  
 sible, says the Pathfinder. Divers

divers usually work about 400 feet, and even at that depth can stay only a short time. It takes about three minutes for a diver to descend to 200 feet, but it takes a longer time to bring him back. The hauling is not continuous, and pauses must be made to allow the gas occasioned by great pressure to escape from the body fluids and tissues. The number and duration of the stops naturally increases with depth.

At a depth of 200 feet there is a water pressure of nearly ninety pounds to each square inch of

surface. Thus, at that depth a diver with an average exposed area of 720 inches would feel a weight equivalent to more than thirty tons. No wonder, then, that a diving suit weighs about 280 pounds and costs in the neighborhood of \$1000. At twenty feet the pressure is eight and one-half pounds to the square inch; at thirty feet, thirteen pounds; at forty feet, seventeen pounds, and this increases proportionately with depth until at 100 feet the equivalent weight is 50 pounds to the square inch.

Another of the many dangers that beset a diver is to rise from the depths too rapidly and so receive an excessive amount of compressed air in proportion to the water pressure. This is at the risk of rupturing a blood vessel or worse. Most divers are careful because sudden changes of pressure break their eardrums. A diver must swallow constantly to keep his head clear, and that is the reason most divers chew gum while at work. Some have even known to smear vinegar on

ner face plates, licking it from time to time to facilitate the flow of saliva.

Full-blooded men or men with weak lungs cannot be used in diving or submarine work. Even if those in the prime of health for years of work at high pressure finally causes gas bubbles to form in the blood and result in severe nervous twitches, premature retirement because paralysis.

Notwithstanding the profession has a strong hold on its followers and the writer has yet to

**Family Shoes Cause Bunions**

Bunions are due to the spreading of the bones at the ball of the foot and pulling together of the front of the toes, causing the bones to form angles at the ball of the foot. Shoes rubbing these angled joints cause bunions. Therefore the best thing to do is to get shoes which are perfectly comfortable in all positions and which do not place

pressure on the bunion or angled joint. While surgery is the only remedy in severe cases, mild cases may get along very well in road-toed shoes.—(Pathfinder, 2)
